

Hello, my name is Shontae Halsey. I am a Criminal Justice graduate. My new major is sociology and I'm a senior.

I chose to come to Fayetteville State University because number one, it's a HBCU and also, I have history here being military retired from Fort Bragg.

All of the staff and faculty in the Criminal Justice department have been monumental for me and my future goals to attend graduate school. More specifically, my mentor Dr. ____ and Dr. _____. I would also like to add and thank Dr. ____ for making it possible for me to attend the American Society of Criminology.

We are a school dedicated for achievement, even if your learning style is different. I felt like the faculty here take initiative into mentoring us personally. They have office hours that have been set aside for us to go there to discuss our unique learning style and they will definitely work on us in achieving that goal which is graduation.

I'm proud to be a bronco because HBCU's rock!
