

My name is Ashley Terrell. I am a senior and my major is sociology.

I think they have a really great program. And it's convenient, local, um it's easy for me to get here and I fell in love once I was here. I really did – small classes, interactive professors.

I would say Dr. Morooka has probably been my um biggest influence. Things that I did not feel confident in he's been wonderful. Always available, not easy, but great teacher.

I love it here, like I said, the classes are smaller, the teachers are wonderful, everybody is accommodating. It's like a big family.

Why am I proud to be bronco? Just cause, like I said, it's an integrated family. You know what I mean? I'm a white girl. I'm a minority here and I have been embraced and welcomed. It's a different atmosphere here. Different than any school I've been to. And I've been to a few.
