

My name is Kyle Procter. I'm a senior at Fayetteville State, Chinese minor.

I participated in the early college school and I decided to continue my education here at Fayetteville State. I actually hope to go overseas and actually do International Law, hopefully in China.

Oh, I feel a sense of community here and um really I love the smaller class sizes as well too. I feel like the professors are one with the students you know it's nice.

The clubs that they have and activities here on campus, and I would also let him or her know about, uh, just the teacher interaction with the student as well.

I personally am proud to be a Bronco just for sense of being at an HBCU and graduating from here.
