(910) 456-0000

### OBJECTIVE

To use my education and work experience to obtain an internship that will provide professional growth and development in the field of Environmental Protection.

### EDUCATION

Fayetteville State University

Fayetteville, NC

Bachelor of Science Degree in Chemistry

Expected Date of Graduation, May 2011

3.88 GPA

### RELEVANT COURSES *(list 300 and 400 level classes in your major where you earned no less than a B)*

- Chemistry II
- Introduction to Entomology
- Principles of Inorganic Chemistry
- Biotechnology
- Animal Biology & Wildlife
- Instrumental Methods Analysis
- Molecular Cell Structure
- Introduction to Parasitology

### RESEARCH EXPERIENCE

Summer 2009

North Carolina State University Mathematical Research Experience for Undergraduates

- Presented to EPA scientists and researchers at the 8<sup>th</sup> Annual Summer Undergraduate Research Symposium
- Participated in research that involved the study of tumors in rats caused by exposure to Dimethylarsenic Acid (DMA)
- Developed a Physiologically Based Pharmacokinetic model for the body of a rat in order to model the flow of DMA through different organs of its body
- Used Ordinary Differential Equations to determine different concentrations of DMA in the body of a rat

### WORK EXPERIENCE

Food Lion LLC, Fayetteville, NC

2009-present

#### **Cashier**

- Count money in cash drawers at the beginning of shifts to ensure that amounts are correct and that there is adequate change
