Student Enrichment and Global Enhancement

Cultural and intellectual is provided to our students through the performing and fine arts series, personal opportunities to create, and opportunities to learn how to become global citizens. We will increase exposure to performing artists, acclaimed writers, and distinguished achievers in America. Though many of our students have studied in China, India, Africa, Spain, Mexico, and other parts of the world, our goal is to enhance the number of study-abroad opportunities for global awareness. We will encourage FSU faculty to develop new international curricula, teach abroad, and conduct international research. We will also invite faculty from abroad to do the same at FSU.
