Faculty Brainstorming Sessions I and II

Topics	Potential Discussion Questions
Entrepreneurial Thinking	<p>How can academic units become more entrepreneurial and find ways to leverage faculty expertise to generate new revenue streams? What new ideas can we implement to stay competitive and boost enrollment?</p>
New Models of Learning and Teaching	<p>How can we improve: Student learning outcomes? DFW rates? Completion rates among first time freshmen? Student preparation for the workforce?</p> <p>How do we move away from traditional models of teaching and move toward a more interactive approach to teaching such as digital and adaptive learning?</p>
Student Engagement	Areas needing improvement
Retention and Persistence	What strategies can we use to increase the number of students we retain each year?
Process Improvements / Process Engineering (tactics)	How do we ease the administrative burden on students, faculty, and staff?
Enhancing FSU's Reputation in the Community and Beyond	<p>What is the value that we offer? How do we demonstrate relevance? How can we differentiate from other universities in the region and drive student choice? What is our competitive advantage?</p>
Managing Cost Pressures	How do we improve the ability of the University to continue to function at high levels, even in the face of potential reductions in state appropriations?
Repurposing Classrooms	Ideas to enhance the student learning and engagement experience
Free Discussion	Free exchange of ideas
