## **K. Teacher Effectiveness**

Institution: Fayetteville State University

## Teacher Effectiveness

This section includes a summary of data collected through the North Carolina Educator Evaluation System (NCEES) and Education Value-Added Assessment System (EVAAS) for beginning teachers prepared by this institution. North Carolina defines a beginning teacher as one who is in the first three years of teaching and holds a Standard Professional 1 license. The evaluation standards identify the knowledge, skills, and dispositions expected of teachers. School administrators rate the level at which teachers meet standards 1-5 as they move from ratings of "developing" to "distinguished." Effective 2010–2011, at the end of their third year beginning teachers must be rated "proficient" on standards 1-5 on the most recent Teacher Summary Rating Form in order to be eligible for the Standard Professional 2 License New teachers are more likely to be rated lower on the evaluation standards as they are still learning and developing new skills and knowledge. Student Growth is determined by a value-added measure as calculated by the statewide growth model for educator effectiveness. Possible student growth ratings include "does not meet expected growth", "meets expected growth", and "exceeds expected growth." Additional information about the NCEES and EVAAS is available at <a href="https://dpi.nc.gov/districts-schools/districts-schools-support/district-human-capital/educator-effectiveness-model">https://dpi.nc.gov/districts-schools/districts-schools-support/district-human-capital/educator-effectiveness-model.</a>

\*Sample Size represents the number of teachers that obtained educator effectiveness data during the 2018-19 school year. \*Blank cells represent no data available

*Institutions with fewer than	n five beginning teacher	s evaluated during the 2018-	2019 school year are reported as N/A.
