

College of Education

# HBCU STEM

# Master's Scholars Program

Funded by the U.S. Department of Education

Earn up to **\$4,300** per semester in financial support!

## PROGRAM GOALS

The purpose of HBCU STEM Master's Scholars Program is:

1. To increase the number of African-Americans, underrepresented and low-income students who earn graduate degrees in STEM teaching disciplines (mathematics and science).
2. To provide opportunities for students to engage in research and conference presentations.
3. To provide academic support and counseling resources to assist students to achieve success in graduate programs in STEM teaching disciplines.

## About the Master of Education and Master of Arts in Teaching Degrees

Fayetteville State University's College of Education has several STEM Master's programs for the Master of Education (MEd) and Master of Arts in Teaching (MAT) degrees. The MEd and MAT degree programs prepare profession ready, highly trained, knowledgeable leaders in the field of teaching. The MEd and MAT degree programs with STEM teaching concentrations are designed for graduate students to: improve teaching skills, provide more classroom and hands-on research experience, greater job opportunities, gain the ability to seek other educational related positions and greater income potential.
