## Clinical Experience Interview Rubric

<p><b>25-27 = Target</b></p>	<p>Teacher candidates reflect a thorough understanding of the relationship of content and content-specific pedagogy delineated in professional, state, and institutional standards. They have an in-depth understanding of the content that they plan to teach and are able to provide multiple explanations and research-based instructional strategies so that all students learn. They present the content to students in challenging, clear and compelling ways, using real-world contexts and integrating technology appropriately. Candidates are able to work with students, families, colleagues, and communities in ways that reflect the professional dispositions expected of professional educators as delineated in professional, state, and institutional standards. Candidates demonstrate behaviors that create caring and supportive learning environments and encourage self-directed learning by all students. Candidates recognize when their own professional dispositions and appearance may need to be adjusted and are able to do so.</p>
<p><b>18-24 = Acceptable</b></p>	<p>Teacher candidates understand the relationship of content and content-specific pedagogy delineated in professional, state, and institutional standards. They have a broad knowledge of research-based instructional strategies that draw upon content and pedagogical knowledge and skills delineated in professional, state, and institutional standard to help all students learn. They facilitate student learning of the content through presentation of the content in clear and meaningful ways and through the integration of technology. Candidates are familiar with the professional dispositions delineated in professional, state, and institutional standards. Candidates discuss behaviors that are consistent with fairness and the belief that all students can learn. Their appearance reflects the level of professionalism needed to work with students, families, colleagues, and communities.</p>
<p><b>Below 18 = Unacceptable</b></p>	<p>Teacher candidates do not understand the relationship of content and content-specific pedagogy delineated in professional, state, and institutional standards in a way that helps them develop learning experiences that integrate technology and build on students' cultural background and knowledge and content so that students learn. Candidates are not familiar with professional dispositions delineated in professional, state, and institutional standards. Candidates do not demonstrate classroom behaviors that are consistent with fairness and the belief that all students can learn. They do not model these professional dispositions and their professional appearance could impede work with students, families, colleagues, and communities.</p>
