(Draft – June 4, 2009)
Preface

The Fayetteville State University Strategic Plan 2009-2014 will guide FSU in achieving its goals and objectives over the next five years. This Plan, however, will be updated on an annual basis. FSU’s commitment to its mission, the mission of The University of North Carolina, and the findings and objectives of UNC Tomorrow are foundational to this plan. In addition, FSU is committed to its core values, which include student success and the pursuit of excellence, shared governance, global responsibility, and collaboration. Consideration of these values will be intrinsic during the development and implementation of this strategic plan.

“The Future is Calling” is the guiding theme for the six strategic priorities, established by the Office of the Chancellor. Retention and graduation rates, economic transformation, intellectual and cultural center, leaders and global citizens, collaborations and partnerships, and fiscal resourcefulness and sustainability provide the framework under which specific initiatives and action plans will be developed by the entire university community. Shared governance has been incorporated in the process from the outset as indicated by the Strategic Planning Steering Committee’s inclusion of representatives from the FSU Board of Trustees, administrators, faculty, staff, and students as follows:
