STUDENTS ARE SUBJECT TO THE HANDBOOK IN FORCE AT THE TIME OF THEIR ADMISSION TO THE DEPARTMENT OF NURSING

Students will sign an affidavit indicating that they will adhere to the policies and procedures set forth in this handbook.
The Department of Nursing follows the policies of Fayetteville State University as set forth in the Undergraduate Catalog [http://catalog.uncfsu.edu/ug/ugindex.htm](http://catalog.uncfsu.edu/ug/ugindex.htm). This handbook contains the policies and procedures that are specific to the Department of Nursing at Fayetteville State University. The student is responsible for reading, reviewing and adhering to the policies in this handbook, the Fayetteville State University Student Handbook, the Website ([www.uncfsu.edu](http://www.uncfsu.edu)), and the Fayetteville State University Undergraduate Catalog.

This handbook is subject to change based on meeting the requirements of regulatory agencies. The handbook will be maintained on the Department of Nursing website. All changes will be updated electronically and students will be notified of changes via their Bronco email account.

Welcome to the nursing program at Fayetteville State University. As with any journey, we have met our share of challenges which have been integral to our history and our evolution. As of May 20, 2011, the Board of Nursing approved the reinstatement of the Generic BSN Program.

Our journey in achieving nursing excellence began in 1992 with our RN to BSN program. This vibrant program has thrived throughout our history to meet the needs of Registered Nurses in this region and beyond. We continue to educate a large number of nurse leaders who play a significant role in the health maintenance of citizens in North Carolina and the rest of the country.

We are currently in a positive transition mode and working on the development of new nursing programs as well as the recent move to our new home in the state-of-the-art Southeastern North Carolina Nursing Education and Research Center. This building is technologically enhanced to support nursing education of the 21st century as well as the Clinical Simulation Center where you will experience the best in human patient simulation.

Best Wishes,

Afua O. Arhin, RN, PhD Professor and Chair

DEPARTMENT OF NURSING DEGREE PROGRAMS

Generic (Pre-Licensure) Bachelor of Science (BSN) in Nursing Curriculum
The nursing curriculum is composed of two components: pre-nursing and upper division nursing. The pre-nursing component is composed of three academic semesters and one summer semester of prerequisite courses or the equivalent. The upper division comprises four academic semesters one summer session after admission to the upper division: http://catalog.uncfsu.edu/ug/AS/NURS/bsnursing.htm

RN to BSN Completion Program
This program is designed for Registered Nurses seeking a Bachelors of Science degree in Nursing.

http://catalog.uncfsu.edu/ug/AS/NURS/bsnursingrnbsn.htm

ACCREDITATION/APPROVAL
The Generic (Pre-Licensure) BSN program is approved by the North Carolina Board of Nursing and both programs are accredited by the Commission on Collegiate Nursing Education (CCNE). The North Carolina Board of Nursing approves pre-licensure programs.
MISSION

Consistent with the mission of the university, the mission of the Department of Nursing at Fayetteville State University is to educate a diverse population in southeastern North Carolina and beyond to be culturally competent, ethical, and caring nurses for a global society. Nursing is a discipline that builds on knowledge from nursing theory; the natural, social, and applied sciences; and the humanities. The Department of Nursing is committed to educating graduates who will provide evidence-based and patient-centered care. The faculty value the systematic and purposeful application of the nursing process to promote the optimal health of clients throughout the life cycle and in a variety of settings. The Department of Nursing strives to produce graduates who appreciate lifelong learning and are contributing members to the profession of nursing, the community, and society.

PURPOSE

The purpose of the BSN program at Fayetteville State University is to develop professional nurses who are committed and are able to make sound clinical decisions in providing high quality healthcare to diverse populations in a variety of healthcare settings while meeting the market demands. Upon completion of the program, FSU graduates will possess knowledge, attitudes, values, psychomotor skills and behaviors that define professional nursing. Graduates will also possess the knowledge base appropriate for future graduate study.

CONCEPTUAL FRAMEWORK AND PHILOSOPHY

The faculty of the Department of Nursing decided on Jean Watson’s theory of Caring as the conceptual framework that guides the program. The faculty, consistent with Jean Watson’s theory, believes that for nurses to develop humanistic philosophies and value system, a strong liberal arts background is necessary, as demonstrated in our curriculum. The faculty also believe in Jean Watson’s seven assumptions about the science of caring. These assumptions suggest that:

- Caring consists of carative factors that result in the satisfaction of certain human needs.
- Caring can be effectively demonstrated and practiced only interpersonally
- Effective caring promotes health and individual or family growth.
- Caring responses accept person not only as he or she is now but as what he or she may become.
- A caring environment is one that offers the development of potential while allowing the person to choose the best action for himself or herself at a given point in time.
- Caring is more “healthogenic” than is curing. A science of caring is complementary to the science of curing.
- The practice of caring is central to nursing.

The faculty members believe that a humanistic value system undergirds the construction of the science of caring in nursing. The faculty members also believe in the application of Watson’s primary carative factors in nursing education which include the following:

- The formation of a humanistic-altruistic system of values.
- The installation of faith-hope.
- The cultivation of sensitivity to one’s self and to others.

• The development of a helping-trust relationship
• The promotion and acceptance of the expression of positive and negative feelings.
• The systematic use of the scientific problem-solving method for decision making
• The promotion of interpersonal teaching-learning.
• The provision for a supportive, protective and /or corrective mental, physical, socio-cultural and spiritual environment.
• Assistance with the gratification of human needs.
• The allowance for existential-phenomenological forces.

Consistent with the theory, the department employs the systematic use of the scientific problem-solving method for decision making. According to Watson, the scientific problem-solving method is the only method that allows for control and prediction, and that permits self-correction. She also values the relative nature of nursing and supports the need to examine and develop the other methods of knowing to provide a holistic perspective.

The caring philosophy also encompasses the promotion of interpersonal teaching-learning. In the context of nursing education, the caring nurse, in our context nurse educator, must focus on the learning process as much as the teaching process. Provision for a supportive, protective and /or corrective mental, physical, socio-cultural and spiritual environment is also essential to this theory.

This philosophy and value system provides a solid foundation for the approach to nursing education at Fayetteville State University as well as providing a foundation in extending our expertise and caring to a wide range of communities in the future.

EDUCATIONAL PROGRAM GOALS

The overall goals of the nursing program are:
• Maintain full approval from the North Carolina Board of Nursing.
• Maintain continuing accreditation by the Commission on Collegiate Nursing Education (CCNE).
• Maintain first time pass rate on the NCLEX-RN within at least 95% of the national average pass rate.
• Graduate no less than 75% of students entering the program.
• Recruit, enroll, retain and graduate a more diverse workforce for nursing.
• Emphasize the development of skill sets of our graduates to contribute to the reduction of health disparities currently experienced by citizens of North Carolina.
• Supply military stakeholders with sufficient professional nurses to meet health demands, and expand the capacity to provide high quality, accessible, educational programs to those students seeking baccalaureate degrees in nursing.

EDUCATIONAL PROGRAM OUTCOMES

The educational program outcomes for nursing program are consistent with the mission of Fayetteville State University, the standards of the Commission on Collegiate Nursing Education (CCNE) and the North Carolina Board of Nursing and are as follows:

• Synthesize empirical and theoretical knowledge from nursing, the natural, social and applied sciences, and the humanities to achieve optimal health care outcomes for clients throughout the lifecycle in a variety of settings.

• Demonstrate competency in the utilization of systematic and purposeful application of the nursing process to promote the optimal health of clients throughout the life cycle in a variety of settings.

• Collaborate with interdisciplinary teams to provide culturally competent, patient centered care to clients throughout the lifecycle.

• Utilize the principles of economics and social justices to enhance accessibility to healthcare and thereby decreasing health disparities.

• Utilize critical thinking and ethical decision making to enhance quality improvement in the outcomes of patient care and the health care needs of the community.

• Integrate informatics and technological advancement into the delivery of nursing practice.

• Utilize knowledge and leadership skills to manage systems that are responsive to the health care needs of southeastern North Carolina, the state, the nation and the global society.

• Apply research findings to support evidence-based best practices in the delivery of nursing interventions to improve health care of a diverse population.

**REQUIRED COURSES**

Complete nursing program information (course descriptions and curriculum plans) can be viewed by clicking on the following links:

[http://catalog.uncfcsu.edu/ug/AS/NURS/bsnursing.htm](http://catalog.uncfcsu.edu/ug/AS/NURS/bsnursing.htm)

[http://catalog.uncfcsu.edu/ug/AS/NURS/courses.htm](http://catalog.uncfcsu.edu/ug/AS/NURS/courses.htm)

**GENERAL INFORMATION**

**Change of Name, Address, and/or Telephone Number**

If there is a change in the name, address, and/or telephone number of a student while enrolled in the Nursing Program, the student must report the change to the Department of Nursing. Please keep an updated emergency phone number with the department’s office.

**Transportation**

Transportation to and from all classes and clinical learning experiences is the responsibility of each individual student. Faculty does realize the importance of carpooling, but it is not always possible for clinical rotations.

**Confidentiality**

Confidentiality is a component of accountability and must be observed at all times. Discussions, written information, and medical record pictures concerning client(s) must be limited to pre-and post-conferences and nursing theory classes. At no time shall a client be discussed while at break, on the elevator, in the dining area, on campus, at home, or any other similar setting.

*Adopted 11/13/2012, revised 03/18/2014, editorial update 8/12/2014, revision 10/7/14, revision 3/3/15, revision 11/9/15*
Confidentiality cannot be over emphasized. Noncompliance is cause for dismissal from the program.

**HIPAA Compliance**

All those in healthcare must now comply with the federal regulations of The Administration Simplification Subtitle of the Health Insurance Portability & Accountability Act of 1996 (HIPAA). This Act requires that individually identifiable patient information be disclosed on a need to know basis only. Care must be taken to minimize incidental disclosures and must disclose only minimal amounts of information necessary to accomplish the task. The minimum disclosure standard, however, does not apply to requests for information by a healthcare provider for treatment purposes. For example, when administering a medication, the healthcare provider would have full access to the medical record. This is covered by the patient’s consent for treatment.

In order to protect patient/client privacy, all information that could identify the patient/client must be removed from student papers, such as care plans and case studies. Information to be removed includes the individual’s name, initials, address, phone number, fax number and Social Security number. Student papers may not be copied for careless circulation and handling. Written documents containing private health information must be either carefully stored or shredded to prevent the circulation of confidential patient information.

Confidentiality and privacy also extends to oral communications which extend beyond the need to know for treatment and/or educational purposes.

Clinical agencies are also mandated to follow HIPAA regulations. Students will therefore be required to meet any and all of the clinical agency’s requirements as part of the clinical affiliation.

**Faculty Advisors**

Each student is assigned to a faculty advisor who will serve as a resource person. The faculty advisor is available on an appointment basis during office hours or by special request.

**Student Access to Instructors**

Full-time faculty members will post office hours to inform students of their availability for interaction and academic assistance. Part-time faculty members will notify students of their availability outside of class and clinical.

**Telephone Calls**

No telephone calls are to be received in the clinical area except in the case of an emergency. Out-going personal calls of an emergency nature may be made from the clinical area only after securing permission from the clinical instructor. Students must keep their cell phones, pagers, and any other personal communication devices off and is prohibited in the patient care areas. Taking pictures, recordings, etc., of a patient or patient information or posting pictures, recordings, etc., on the internet, through email, or other electronic mediums by cell phone or other personal communication devices without the patient’s prior written consent or in violation

*Adopted 11/13/2012, revised 03/18/2014, editorial update 8/12/2014, revision 10/7/14, revision 3/3/15, revision 11/9/15*
of the clinical agency’s policy may be a violation of HIPAA. Failure to adhere to this policy may subject the student to disciplinary action which may include suspension, dismissal and/or legal action by the clinical agency or patient.

**Student Professional Behaviors**

Students are expected to adhere to the University’s Code of Conduct located at [http://www.uncfsu.edu/documents/handbook/Codeofconduct.pdf](http://www.uncfsu.edu/documents/handbook/Codeofconduct.pdf), the Code of Ethics for Nurses located at [http://nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics.pdf](http://nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics.pdf) and the following professional behaviors:

1. Demonstrate professional responsibility and accountability in providing nursing care by:
   a. Showing self-direction in providing care of client(s).
   b. Reporting promptly to the clinical area.
   c. Leaving assigned experience area by reporting off duty appropriately.
   d. Identifying own assets and limitations with instructor.
   e. Accepting and utilizing constructive feedback and suggestions.
   f. Submitting assignments punctually.

2. Complete responsibility for assigned client(s) prior to post conferences by:
   a. Charting and reporting is completed by designated time.
   b. Terminating client relationship prior to leaving each day.
   c. Organizing care to utilize time effectively.
   d. Leaving work area neat, clean, and resupplied.

3. Inform instructor at appropriate intervals during clinical by:
   a. Assuming responsibility for assignments.
   b. Reporting pertinent observations promptly.
   c. Participating in learning situations.
   d. Accepting responsibility for own errors and actions.
   e. Calling attention to own errors which the instructor or staff may not notice.

4. Provide quality care to all clients. In instances of refusal to care for clients with infectious diseases, career counseling shall be pursued to determine the student’s progression in the program.
   a. Reporting immediately to the clinical instructor and charge nurse all personal injuries.
   b. Following clinical facility policy for alleged injuries.

5. Assume responsibility for meeting personal and professional behaviors by:
   a. Accepting professional responsibility by practicing courteous, cooperative, pleasant and helpful interaction with others (this includes verbal and nonverbal communication)
   b. Accepting personal responsibility for one’s own actions.
   c. Utilizing moral, ethical, professional, and legal principles.
   d. Representing Fayetteville State University in a professional manner at all times.
   e. Wearing professional attire/essential to maintain a professional image.

*Adopted 11/13/2012, revised 03/18/2014, editorial update 8/12/2014, revision 10/7/14, revision 3/3/15, revision 11/9/15*
for proactively implementing a remediation plan of action.

**ACADEMIC POLICIES**

**Grading System**

The grading scale for the Department of Nursing is as follows:

- A – 93 -100
- B – 85 – 92
- C – 78 – 84
- D – 70 – 77
- F – 69 and below

**Academic Standards for Progression**

1. All NURS courses will be evaluated based on satisfactory completion of all components (class and/or laboratory/clinical/practicum). The classroom competency standard requirement is 78% (C). Students are required to achieve satisfactory evaluation in the laboratory/clinical/practicum components. For those NURS courses that only have a practicum component standard requirement is 78% (C). Numerical grades below 78% (C) in the NURS courses and/or an unsatisfactory laboratory/clinical/practicum evaluation for the semester are considered unsatisfactory attainment of course competencies. Students must satisfactorily complete all components of the course in order to progress in the program. A failure (unsatisfactory) of the laboratory/clinical/practicum component will result in a course grade of “F” for unsatisfactory attainment of course requirements. The grade the student receives in the didactic component of the course will be the recorded grade for the course.

2. Students who do not score a minimum of 78% competency on a unit test in pre-licensure NURS courses, may be required to meet with the instructor following the test.

3. Students must earn a grade of “C” or higher in each NURS course in order to progress in the nursing program.

4. Students not progressing as a result of one course failure must successfully complete the failed course. Pre-licensure students must also successfully complete NURS 402 Special Topics. This concurrent course is to facilitate academic/clinical readiness. Opportunity to repeat the course is based on seat availability.

5. NURS courses have a maximum of two attempts. Attempts include any final course below a “C”. These grades include a grade of W, WU, D, F, and FN. Any student who earns below a “C” in any two nursing courses will be dismissed from the program.

*Adopted 11/13/2012, revised 03/18/2014, editorial update 8/12/2014, revision 10/7/14, revision 3/3/15, revision 11/9/15*
6. Pre-licensure nursing students will be required to take a number of standardized tests throughout the nursing program to monitor the student’s retention of course content. The scores from these tests may be used as part of the course grade. Students with standardized test scores less than the norm/standard score as defined by the testing service, will be required to complete remediation. (See NURS Course Syllabus for specific procedural details)

7. All written assignments/activities for class, lab or clinical/practicum must be satisfactorily completed. Failure to satisfactorily complete assignments/activities by the specified time period as identified in the NURS course syllabus/blackboard will result in a meeting with nursing faculty to determine cause and program progression. A pattern of noncompliance will result in a course grade of “F”.

8. A medication dosage calculation test will be administered in each pre-licensure clinical NURS course. Students must achieve a 90% score on the medication dosage calculation test. Three attempts to achieve this required score will be provided. Remediation will be provided after the first and second unsatisfactory attempt. Failure to achieve this 90% score requirement will result in a course grade of “F” for unsatisfactory attainment of course requirements. (See NURS Course Syllabus for specific procedural details)

9. Pre-licensure nursing students must adhere to the curriculum sequenced plan for progression. A student may take non-nursing courses in advance, but cannot take them late as the course may become pre-requisite or co-requisite to the next NURS course. Students who do not receive a satisfactory grade in the required pre-requisite or co-requisite courses within the curriculum sequence will not be able to progress in the nursing program. (See NURS Course Syllabus for specific requirements)

10. Maintain current American Heart Association Cardio Pulmonary Resuscitation (CPR) certification HealthCare Provider; TB (or x-ray) testing; evidence of Hepatitis B vaccination, Influenza vaccination and liability and health insurance while enrolled in the nursing program.

11. Adhere to all policies of the university, nursing program, and clinical agencies.

12. Maintain an unrestricted, current RN license. (RN-BSN students only)

Readmission after Dismissal

1. Students earning a final course grade below a “C” in any two different NURS courses during the course of study will be dismissed from the program.

2. Students may re-apply to the nursing program one time.

3. Students must meet the current admission and graduation requirements in effect at the time of re-application to the program.

4. If accepted for readmission, the student must begin the program at the first semester.

5. The student desiring to reapply to the program must do so within one year.

Ineligibility for Readmission

1. Readmitted students who receive a course grade below a “C” in a third course will be dismissed from the program and are ineligible for readmission.

2. Students who receive a course grade below a “C” any one NURS course twice will be dismissed from the program and are ineligible for readmission.

Nursing Course Transfer Policy

In the pre-licensure program, transfer credit will not be awarded for required NURS courses. Transfer credit will be evaluated on an individual basis for courses in the RN-BSN program.

Nursing Course Advancement Placement Credit Policy

Credit by exam or advancement placement credit will not be awarded for required NURS courses.

Grade Appeal Policy

Grade appeals will follow the University’s grade appeal policies and procedures which can be assessed at http://catalog.uncfsu.edu/undergraduate/academic-regulations/grade-appeals.htm

Graduation Policy

The university awards the Bachelor of Science degree to those students who successfully complete the requirements set forth for their degree program. Degree candidates must complete an application for graduation through the Department of Nursing and pay the required university fee. Graduating nursing students are expected to check with the Registrar and their advisor or the Department Chairperson concerning completion of requirements for graduation. Candidates for graduation from the Department of Nursing must complete the curriculum with an overall GPA of 2.0 or better. All courses in the nursing curriculum must be completed with a grade of “C” or better. Graduates are expected to attend the graduation ceremony. Information regarding graduation, including fees, will be disseminated by the Registrar.

CLINICAL/LAB POLICIES

Clinical Experience

Each pre-licensure student will be assigned to a clinical facility where the student will apply concepts and psychomotor skills learned in the classroom and laboratory under the supervision of a faculty member. Students should always present to the clinical site on time, dressed in the approved Fayetteville State University uniform (please refer to “Dress Code” guidelines).

No student may participate in a clinical setting/unit where he or she is employed full-time. This policy allows the student the freedom of inquiry needed in the educational process.
Students enrolled in a pre-licensure nursing course with a clinical component are responsible for providing the following documentation:

1. Current American Heart Association Cardio Pulmonary Resuscitation (CPR) certification
2. Current/annual PPD (students with a positive PPD, should provide evidence of a negative chest x-ray).
3. Other immunizations (example: hepatitis vaccination).
4. Proof of liability insurance.
5. Students should be in approved nursing uniform for all pre-licensure clinical rotations

**Clinical Attendance**

Absence from the clinical area should be avoided. If a student must be absent for illness or other unavoidable circumstances, makeup assignments will be at the discretion of the faculty. Attendance in the clinical area is an expectation of professional responsibility and absenteeism reduces the achievement of clinical objectives. Absences from on-campus laboratory and off-campus clinical experiences will be documented. Students who are late three or more times are documented as one absence. The student who is late for clinical may be sent off the unit based on patient safety issues.

Clinical experiences are essential and of such critical importance to the student’s learning process in nursing, that attendance is mandatory and cannot routinely be made up. If an emergency occurs and the student cannot attend the clinical experience, the student must contact the clinical instructor **at least one hour prior to the required clinical time**. Students are expected to arrive to the clinical site (lab or assigned facility) fifteen minutes prior to the start of the shift (or as designated by the instructor); and to leave the clinical site (lab or assigned facility) only when instructor has given permission.

In the event if clinical is cancelled for inclement weather, etc., the clinical instructor will provide an alternative experience for that day to meet the clinical hours requirement.

**Consequence for Failing to Meet Clinical Attendance**

Failure to do so may result in unsatisfactory evaluation. Missed clinical experiences will be handled individually and more than one clinical absence will result in unsatisfactory evaluation for the semester. The Course Coordinator will discuss and evaluate extenuating circumstances with the assistance of the Chair of the Department, if necessary.

**Skills Lab**

Skills labs offer the student an opportunity to practice hands-on learning. **Prior to** attending each lecture and lab, the student should:

1. Read the required readings.
2. Become familiar with the terminology included in the reading assignments.
3. Study the objectives and performance requirements.

While demonstrating skills, students may be questioned by the instructor about material covered by objectives in each unit. This serves as an evaluation of student’s understanding of principle
and rationale for skills demonstrated. Students may be required to reschedule skill demonstration if the instructor feels that knowledge base is inadequate.

Skills lab attendance is mandatory and as there will be extremely limited make-up opportunities, students are encouraged to attend their scheduled lab. It is the student’s responsibility to reschedule a missed lab by contacting the skills lab instructor within twenty-four hours of the missed lab.

**Liability Insurance**

All students are required to have liability (malpractice) insurance to practice in the clinical areas.

**Criminal Background Check/ Drug Screen**

Once admitted to the pre-licensure program, all students must pass a national criminal background check as well as a drug/illegal substance screening. This requirement is based on medical industry standards. Drug screens and background checks are required by clinical agencies where students complete their practicum experience. Students should be aware that certain gross misdemeanors and felonies may disqualify them from participating in clinical work experiences and unable to complete their degree program. Future employment opportunities in the health care field may also be affected. Students who are unable to pass these screenings will be removed from the program.

Students are expected to complete the above requirements within the window of dates designated by the Nursing Program. Students will be notified of the screening dates during the orientation program prior to the start of classes. Failure to complete the requirements in this timeframe will result in the student having to withdraw from all clinical nursing courses. Positive drug screen results for illegal substances and/or evidence of past or present criminal behavior identified through the background check or through other documented evidence of criminal behavior may lead to administrative sanctions up to, and including dismissal from the School of Nursing. Non-compliance with the background checks and/or drug testing policies is cause for dismissal from the nursing program. The National Council of State Boards of Nursing (NCSBN) has information regarding background checks and licensure: [https://www.ncsbn.org](https://www.ncsbn.org)

**Immunizations**

Students are required to insure currency of their immunizations according to CDC guidelines to complete the admission process. In addition, students are required to complete the annual PPD (Tuberculosis screening) and seasonal influenza vaccines. Documentation must be submitted to the clinical coordinator and on record to attend clinical experiences.

**Cardio-Pulmonary Resuscitation**

American Heart Association Cardio Pulmonary Resuscitation (CPR) certification (Basic Life Support for Health Care Providers) is required for all nursing students prior to beginning the program and throughout their matriculation in the program. Attaining and maintaining certification is the student’s responsibility. Documentation must be [Adopted 11/13/2012, revised 03/18/2014, editorial update 8/12/2014, revision 10/7/14, revision 3/3/15, revision 11/9/15](#)
provided.

Students will not be allowed to participate in the clinical experience when any of the following are not documented in their record: (1) all health requirements; (2) current CPR certification (Basic Life Support) (4) Criminal Background Check.

**Uniform and Dress Code**

The purpose of the dress code is to assist in providing an environment which maximizes psychological and physical safety of both client and student. Proper uniform assists the client and the staff in clinical areas to identify the student as a member of the Fayetteville State University Nursing Program.

Uniforms will be ordered from a designated company.

Compliance with the dress code is a critical requirement for the clinical areas. Noncompliance may result in dismissal from the clinical area for the day. Dismissal from the clinical area will be recorded as a clinical absence.

**Primary Clinical Sites/Simulation Clinical Uniform**

- **Female:** Standard white uniform skirt or pants with program specific top, white hose (no ornate hose), all white leather shoes (no sneakers or canvas types), FSU issued name badge & clip (no lanyards) and white lab coat. Clogs must be secured with strap around heel. All white duty socks may be worn with pants and must extend above the ankle.

- **Male:** White pants, program specific top, white socks, all white leather shoes (no canvas type), FSU issued name badge & clip (no lanyards), and white lab coat.

Alternative Site Clinical Uniform will be determined by faculty and the clinical site.

**Dress Code**

- Uniform dress length shall be no higher than mid-knee.
- Shoes and shoelaces are to be clean.
- A white lab coat may be worn during clinical experiences, but not required.
- Lab coats must be 3/4 or full length, white only with the Fayetteville State University emblem displayed on the left upper sleeve.
- Wear solid white or neutral colored underclothes under uniform.
- A short or long-sleeved “T” shirt may be worn under the uniform top if it is white or the same color as the uniform color. It must be a rounded crewneck type shirt. The hem of the shirt must be tucked in and not exposed.
- If time does not permit a complete change of clothes upon return to campus from the clinical area, students will wear lab coat over uniform.
- FSU issued name badge & clip (no lanyards) will be worn at all times in the clinical area.

• When entering the clinical area for assignments or study purposes, the student will wear the alternative site uniform and badge.

1. Special Dress
   a. Hospital specialty areas (obstetrics, operating room, isolation areas, etc.) require special attire.
   b. The student will comply with the special dress requirement when assigned to a special area.

2. Hair and Nails
   a. Hair may be worn down but pulled back and secured at the back of head or neck or single braided down the back. Hair must not fall forward or interfere with safety considerations in providing client care.
   b. Beards, mustaches, and sideburns will be kept clean and neatly trimmed.
   c. Fingernails will be kept short and clean. They should not extend beyond the end of the finger. Nail polish, sculptured or artificial nails are not permitted.
   d. No ribbons, beads or decorative hair clips will be worn. Hair clips should be neutral in color and blend with hair color.

3. Jewelry
   a. No rings except wedding bands are to be worn.
   b. Students with pierced ears may wear one pair of small post earrings (1/4 inch in diameter). These may be white pearl, gold or silver studs. One earring per ear. No visible piercings such as facial rings (i.e. nasal or tongue rings) are permitted.
   c. Chains, necklaces and bracelets are not to be worn during clinical experiences.
   d. A watch with a second hand is required.

4. Makeup and Perfume
   a. Bathing, deodorants, and oral hygiene will be practiced to control body odors.
   b. Scented perfume, perfumed deodorant, toilet water, powder, etc., is not to be worn.
   c. Light subtle make-up may be worn. Artificial eyelashes are not permitted.

5. Body Art
   a. Body art must be covered during client care assignments.

6. Other
   a. Most clinical campuses are tobacco free. If a clinical agency permits tobacco, one must adhere to agency policy for tobacco use.
   b. Chewing gum, use of tobacco products, or eating is not permitted in client areas.
HANDBOOK RECEIPT

I have access to the Fayetteville State University Nursing Student Handbook, read its contents, I agree to its terms, and sign this form voluntarily.

I understand and agree that in the performance of my duties as a student at various clinical agencies I must hold all clinical information (paper and/or electronically stored) in strict confidence. I will access information only as it is needed to perform my clinical duties and responsibilities and will not share my access code with others. I understand that any violation of the confidentiality of clinical information shall result in punitive action.
