

My name is Kyle Brown. I'm a senior here at FSU. My major is visual art/digital arts and minor in geospatial intelligence.

Um, I always wanted to go to an HBCU and Fayetteville State is historically one of the best HBCU's especially in North Carolina. So that's why I made the jump here. I wanted to get that experience. So once I graduate I plan on doing visual arts and digital arts creating my own business, you know, internet, graphic design, web design, illustration. More on the architecture side.

And yeah the professors here are very awesome. You got professor Dwight Smith he's really historical with you know African American art and stuff like that but we have great courses at this school that's why I really picked this school out of all the other options that I had.

Bronco pride, we'll I'm in ROTC also, so Bronco pride is proud of our curriculum as well. We do wear the logo in all of our uniforms so of course you know we got to give it up for the school. We have a great basketball team, great volleyball team as well. I go to mostly all of the volleyball games. I love watching it. And football, I mean you can't go wrong with our football team and Bronco pride is big in this area.
