

Hi I'm Marny Marsh and I received my certificate in Project Management from the College of Business and Economics here at Fayetteville State University.

Project Management is a lucrative field coupled with an MBA it's a dynamic field.

I really enjoyed my professor, Dr. Paul Richardson, he is a walking PMBOK. He brought us real world experience, coupled that with challenging us and acquiring of us to think outside the box and think of other possibilities that we could explore in the area of project management. And I'm looking forward to all of the possibilities that it brings.

I am Marny Marsh class of 1992 and 2018 and I am proud to be.
