

I'm international student and I'm come from China. My major is computer science and you can call me Jason. And my Chinese name is Yuan Gao okay. I'm junior now. I merry enjoy the life in FSU.

I have a lot of teacher from all around the world like Europe, China and India. I'm very I'm glad to work with them because they are very friendly give me a lot help in my major and also my academic advisor my international advisor also gave me some good advice for my academic and my life here.

Because my major is computer science that's me I have a lot of work need to do you know a lot of projects a lot assignments every week I have a test so in my spare time I like to spend spend my time with my friend like go shopping together or go hiking something like that in our some in our free time.

This school have very long history and the multiple cultures you know you can find the students all around world staying campus study in campus and the the people the stuff the teacher the professor here it's really nice and I'm really enjoying the life here.
