

Hello my name is Jennifer Williams my classification is a senior here at Fayetteville State University and my major is middle grades education with a concentration in mathematics.

I always knew that I wanted to teach and math has been one of my strong subjects and it just comes natural to me, so to help someone else come along.

All of my instructors have been great. I can't go without naming a few but I have had the best instructors to help guide me, lead me, and just pretty much cater to me whatever my needs may be. There is no other place like Fayetteville State.

Being a stay-at-home mom for over 13 years coming here has been the best experience I could have had. Just having that social that support that I need to help me get to that purpose that I set out to do. It has been a wonderful experience.

I am proud to be a bronco because there's no other place to be!
