

USE OF SIMULATION SOFTWARE

to Improve Efficiencies in an
Emergency Department in Barbados

Friday, February 28th
10 AM – 11 AM
Online Seminar

Key Takeaways:

ED Efficiency
and Challenges

Simulation Studies
using ARENA Software

Research Findings can
Influence Practices

Dr. Chaynie Wililams

FEATURED SPEAKER

Associate Professor, MMEF, BCBE

Improving Emergency Department Efficiency through Simulation Research:

Barbados, like many low- to middle-income countries, faces challenges in its emergency department (ED), including limited staff, high patient volumes, and outdated infrastructure. Simulation research can provide insights into how staffing models and patient flow strategies impact ED efficiency.

Be part of the discussion on innovative
solutions to ED challenges!
