Prior Education TRANSCRIPTS: Please list your previous college/university experience including: Name of Institution, Dates Attended, and Degree/Certificates earned. You will be required to submit OFFICIAL transcripts for all institutions attended. **IMPORTANT:** Even if you did not complete the degree program, you must provide OFFICIAL transcripts from the institutions you were enrolled in. If you took a Certification (non-degree course) - this applies to you as well. If you have no college/university experience, you must submit your high school transcripts in lieu of college/university transcripts.

General Information and Registration Policies

The below summarizes FSU's general information and registration policies. By registering, you acknowledge that you meet any prerequisites listed for the course.

1. **Student Payment Responsibility:** All students registering for classes with the FSU CDHS Cybersecurity Academy accept personal responsibility for all financial obligations. In the event of a loan, or employee-sponsored registration, the student will be held responsible for payment in full in the event that the sponsoring organization does not make payment to FSU CDHS Cybersecurity Academy in a timely manner.
2. **Classes:** Enrollment is on a first come first served voluntary basis. All classes are subject to space availability. Enrollment is not guaranteed. All start dates are tentative and classes run based on adequate enrollment. Classes may be postponed, rescheduled, extended or cancelled at FSU CDHS's sole discretion. Students will be notified of all class changes and cancellations.
3. **Disenrollment/Cancellation and Refund Policy:** The cancellation and refund policy is as follows:

Disenrollment:

When a student accumulates too many absences, the student will be in danger of dis-enrollment from the course they are participating in. **A student will be issued a written warning when they are approaching 5 absences for Cyber Foundations Course and 6 absences for the Cybersecurity Course. Students who exceed the above numbers will be given written notification of dis-enrollment.**

Refund Policy:

For students using VA benefits, the "Pro-Rata" Refund Policy will be applied in accordance with 38 US Code section 3676 (titled "approval of non-accredited courses"). When a VA student **under any VA chapter withdraws**, or does not enroll, or is dis-enrolled after paying for courses, in whole or in part: The refund for the VA Student will be calculated separately and without regard to any refund that may be due from other sources. The above Pro Rata Refunds will be calculated and applied as follows:

- Calculate the number of clock hours the student completed
- Divide the completed clock hours by the total approved clock hours
- Example: A program is approved for 200 total clock hours & costs \$7,500. The student completed 75 total clock hours:

$$75/200 = 0.375 \text{ or } 38\%$$

$$\$7,500 \times 38\% = \$2,850$$

The school refunds \$4,650 to the student

The school keeps \$2,850

Any debt with VA is the student's responsibility unless the student never showed up for any classes, or the student showed up for only the first day of class and then stopped attending.

**Center for Defense and Homeland Security
Registration Form**

The following Refund Policy Applies to **all other students who are not using any VA chapter benefits:**

<u>Date of Cancellation/Disenrollment</u>	<u>% of Refund to the Student</u>
Prior to the start of the program	100%
0% - 10% of the start of the program	75%
10% - 20% of the start of the program	50%
More than 20% of the start of the program	0

Note that this chart represents the percentage that the FSU CDHS is responsible for and what students are responsible for in regards to refunds. For civilians and other students who paid out of pocket or through any non-VA program, you must contact with the CDHS immediately upon notification of disenrollment to make arrangements to pay FSU for any refunds due to the CDHS. If FSU owes refunds to students in this category, the CDHS will ensure the student is refunded in an expeditious manner, but no more than 30 days from initial disenrollment. If an applicant is rejected for enrollment for any reason, the applicant will receive a full refund of all monies paid. If a program is cancelled by CDHS Cybersecurity Academy for any reason, subsequent to a student's enrollment, the student will receive a full refund of all monies.

4. **Class Certificate and Auditing:** To receive a certificate for course completion, students must attend 85% of all classes. To qualify for audit privileges, 60% class attendance is required. Audits must take place in the same type of course format as the registered course (i.e., online courses can only be audited online and in house course can only be audited at the physical location of the class). Audits are permitted on a space-available basis only for courses which have not been retired or have had significant content changes. Audits must be started within 1 year of the original class start date. Due to space constraints, audits cannot be confirmed until the first day of the class to be audited. If course materials change, the student is responsible for purchasing the new materials.
5. **Cancelled Check:** A \$50 returned check fee will be charged to the student for any bank-rejected checks.
6. **Cybersecurity Academy:** Admission into the Cybersecurity Academy is not guaranteed. Due to small class size, FSU CDHS must be selective in choosing students invited to enroll in the Cybersecurity Academy. FSU CDHS selects applicants based on a variety of factors. As part of the selection process, FSU CDHS may obtain one or more credit checks or criminal background checks pertaining to each applicant. All applicants must provide the adequate permissions and releases required for FSU CDHS Cybersecurity Academy to obtain such information or the applicant's application will be forfeited.

**CENTER FOR DEFENSE AND HOMELAND SECURITY
CYBERSECURITY ACADEMY POLICY & STUDENT ACKNOWLEDGEMENT FORM**

Description:

The Cybersecurity Academy at Fayetteville State University's (FSU) Center for Defense and Homeland Security (CDHS) provides highly focused skills training and practical experience to address the cyber workforce training needs of the military, the intelligence community, federal civilian agencies, and the commercial sector in the Southeastern region of North Carolina. The Cybersecurity Academy certificate programs combine multiple skills training and hands-on problem solving guided by expert instructors to create high-impact learning. The skills mastered in these programs prepare participants with immediate, on-the-job effectiveness to tackle real-world situations. This is a **non-credited, non-college degree program** offered by FSU. Unless otherwise separately enrolled at FSU, students in the CDHS Cybersecurity Academy are not enrolled at the university nor are they required to do so.

Curriculum:

(Refer to the Respective Course Clock Hours for full descriptions of all courses)

To earn a Certificate in Cyber Foundations, students must complete three classes:

- 1. CompTIA A+ Certified IT Technician**
- 2. CompTIA Network+**
- 3. CompTIA Security+**

To earn a Certificate in Cybersecurity, students must complete four classes:

- 1. Cisco Certified Network Associate (CCNA)**
- 2. CompTIA Linux+**
- 3. EC-Council Certified Ethical Hacker (CEH)**
- 4. Network and Packet Analysis**

Tuition and Fee Schedule:

Total cost for the Certificate in Cyber Foundations: \$5,850 (*for military using VA Post 911 benefits, the cost will be \$5,150). Total cost for the Certificate in Cybersecurity: \$8,495.00 (*for military using VA Post 911 benefits, the cost will be \$7,500.00). Tuition is paid at the time of registration by completing a Registration Application Form and returning them to Fayetteville State University CDHS. The Department of Veterans Affairs (DVA) certifies and pays for the entire course as a whole and not each class separately. **Note: Course payments may vary, depending on the individual student's VA authorized educational benefit program in which they are enrolled (i.e. Chapter, 31, Chapter 33, etc.).** Payment methods include: Cash, check, VA Chapter 33 (Post 911) and VA Chapter 31 (Veterans Readiness & Employment) for authorized military-affiliated personnel), Visa, MasterCard, and American Express or

Electronic Funds Transfer (EFT) sent directly to FSU from various other agencies that have agreed to fund the program, such as the Sallie Mae Foundation. All participating students must pay registration fees prior to the first day of class. If the student is paying out of pocket, they will be required to pay for at least half the course cost up front and the rest is required to be paid by the midpoint of the class or they risk being dropped from the course/program. All course materials will be provided to the student prior to the beginning of each section of the course.

(*Note that, for military members using Post 911 Chapter 33 GI Bill benefits, the cost of the course is less because the exam certification vouchers are omitted from the course cost. The DVA does not cover the cost of the exam vouchers in advance). Students will be offered to opportunity to purchase exam vouchers from FSU CDHS. Military members using GI Bill Benefits who do not choose to purchase exam vouchers from the CDHS must pay out of pocket for the full cost of the exam voucher(s) and submit a claim to the VA for reimbursement. This method may result in members losing certain monetary VA entitlements, as governed by VA policies.

To ensure these programs comply with standards established for the DVA, GI Bill educational benefits contained in CFR 38, 21.4253 & 4254, the following procedures are administered by this institution for these non-accredited and non-college degree programs.

Compliance:

This institution complies with requirements outlined in FSU CDHS Cybersecurity Academy's Program Outline.

Registration:

During the enrollment process, the CDHS will provide all students with the required forms and policies for Registration. It is crucial that students completely read and fill out the complete application package and sign and return the package to the CDHS as soon as possible. CDHS personnel will make every effort to verify the completeness and accuracy of each Registration package. Students who qualify to use their GI Bill Benefits must ensure their VA Certificate of Eligibility or print-out of VA E-Benefits Page is recent and submitted with the package as soon as possible. Incomplete Registration packages will result in registration delays. The CDHS will ensure a copy of each completed VA Registration package is delivered to the FSU VA Certifying Officials (located in Bronco Square across the street from FSU's Main Campus) for input into the VA database. When completely certified, students using their GI Bill benefits will receive an email from the appropriate VA Official notifying them of their Certification.

Military Housing Allowance (MHA):

The Certificate in Cyber Foundations and the Certificate in Cybersecurity courses are Non-College Credit Certification Courses. Class hours are documented as Clock-Hours and not semester or credit hours. **As such, these courses are not considered Full-time.** This is simply based on the number of hours per week that the courses are taught. **However, military members using their GI Bill Benefits may qualify to receive MHA, based on the number of documented clock hours per week for these classes. These courses qualify for Half-Time Hours for MHA.** The minimum MHA requirement for non-full time clock hours varies depending on the particular VA GI Bill Chapter or program the military member has been approved for. The CDHS Cybersecurity Academy schedule will be evaluated by authorized VA Officials to determine in the minimum clock hour requirements have been met and whether

prospective students qualify for such entitlement. Under no circumstances are FSU or CDHS personnel authorized to discuss specific military MHA dollar amounts for students. This is a military student entitlement therefore, members must contact the Veteran's Administration to discuss exact payment amounts and when payments will be made. Such payments will be made directly to the authorized military student and not to FSU.

Grading Policy:

The FSU CDHS Cybersecurity Academy courses are non-credit, non-degree programs. Unless otherwise enrolled at FSU, students in the CDHS Cybersecurity Academy are not required to be enrolled at the university.

Although the Cybersecurity Academy courses are for certification only and not for college credit, instructors will use the following traditional grading scale to monitor, assess and record student's academic performance throughout the duration of the program:

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	<60%

For students utilizing DVA benefits, a minimum grade of a C average (70%) must be met.

Each classroom instructor will assess and record student's grades based on their own discretion, criteria and grading methods. However, instructor's evaluation of the student's performance must be based on a combination of attendance, class participation, performance on class projects, exercises and assignments and comprehension of the materials presented. Instructors must ensure that grades are made available for access by each student respectively, and by the CDHS staff.

Records:

Records for clock-hour programs and semester-hour programs are complete and adequate to ensure compliance with DVA reporting requirements (attendance, progress & rate of pursuit). Record of all prior training and proof of High School completion or proof of the ability to benefit must be maintained and evaluated.

Attendance:

Attendance records are maintained and reviewed bi-weekly. At the bi-weekly review when attendance does not meet the academic standards of 85% (equals 1 absence bi-weekly) attendance, school officials complete and document an assessment. Officials determine if probation or withdrawal is necessary. *Note: One absence in two consecutive weeks is below the 85% attendance requirement, which would result in Probation. One more absence in the following two weeks would result in termination of VA benefits.*

Standards of Progress:

Standards of progress are written and enforced, minimum of a C average (70%) specify a grade and scale system or an "academic" standard that is applied during academic review. At the end of

each term (6 class meetings for Cyber Foundations, 4 class meetings for Cyber Security), school officials conduct an academic review. They validate and document student's progress, in accordance with written standards; continue the student or place the student on probation or withdraw the student.

Probation:

When probation is required, officials place DVA students on probation as follows:

- a. Two (2) terms probation for attendance and SAP (a term is equivalent to 2 weeks)
- b. At the end of probation when students have not attained standards, school administrators officially terminate students for DVA educational benefits.
- c. Two (2) weeks below standards, 2 week on probation; then termination.
- d. If the students has not met standards of progress (attendance or academically) at the end of four (4) weeks, his/her enrollment will be terminated and s/he will not receive future consideration for re-entry.

Attendance:

Attendance will be recorded for every class. It is with utmost importance that students attend every class possible. Students may miss classes in an emergency situation, but are expected to attend 85% of the class as required by the VA to successfully complete the course/program. The same applies to civilians taking this course. Currently, **the Cyber Foundations course allows for 4 absences and the Cybersecurity course allows for 6 absences. Per VA policy, students may not miss more than 2 classes during a two-week period.** Students who are missing class must notify CDHS faculty and the instructor as soon as possible and make arrangements to make up any missed material before the end of the course.

Disenrollment:

When a student accumulates too many absences, the student will be in danger of disenrollment from the course they are participating in. **A student will be issued a written warning when they are approaching 4 absences for Cyber Foundations Course and 6 absences for the Cybersecurity Course. Students who exceed the above numbers will be given written notification of disenrollment. The student will also receive a written notice that they have missed a class and inform them they will not be able to miss another class within two weeks or face removal from the course.**

Refund Policy:

For students using VA benefits, the "Pro Rata" Refund Policy will be applied in accordance with 38 US Code section 3676 (titled "approval of nonaccredited courses"). When a VA student **under any VA chapter withdraws**, or does not enroll, or is disenrolled after paying for courses, in whole or in part: The refund for the VA Student will be calculated separately and without regard to any refund that may be due from other sources. The above Pro Rata Refunds will be calculated and applied as follows:

- Calculate the number of clock hours the student completed
- Divide the completed clock hours by the total approved clock hours

- Example: A program is approved for 220 total clock hours & costs \$9,250. The student completed 75 total clock hours and is using Vocational Rehabilitation to pay for the course:

$$75/220 = 0.340 \text{ or } 34\%$$

$$\$9,250 \times 34\% = \$3,145.00$$

The school refunds \$6,105 to the student The school keeps \$3,145.00

Any debt with VA is the student's responsibility unless:

- The student never showed up for any classes, or,
- The student showed up for only the first day of class and then stopped attending

The following Refund Policy Applies to **all other students who are not using any VA chapter benefits**:

<u>Date of Cancellation/Disenrollment</u>	<u>% of Refund to the Student</u>
Prior to the start of the program	100%
0% - 10% of the start of the program	75%
10% - 20% of the start of the program	50%
More than 20% of the start of the program	0

Note that this chart represents the percentage that the FSU CDHS is responsible for and what students are responsible for in regards to refunds. For civilians and other students who paid out of pocket or through any non-VA program, you must contact the CDHS immediately upon notification of disenrollment to make arrangements to pay FSU for any refunds due to the CDHS. If FSU owes refunds to students in this category, the CDHS will ensure the student is refunded in an expeditious manner, but no more than 30 days from initial disenrollment.

If an applicant is rejected for enrollment for any reason, the applicant will receive a full refund of all monies paid. If a program is cancelled by CDHS Cybersecurity Academy for any reason, subsequent to a student's enrollment, the student will receive a full refund of all monies.

Recertified:

If decision is made to allow re-entry, Owner/Director of Admissions will provide the student 1) letter of re-entry, 2) contract for re-entry specifying hours of pursuit, and 3) notification that student is on probation for two weeks after entry.

Class Cancellations:

Only in extreme circumstances will classes be cancelled. Inclement weather may result in a university closing before or during classes. Other cases such as: Air conditioning failure in the summer months and heating failure in the winter months may arise. In any event, to the extent possible, students and instructors will be notified in advance when classes have been cancelled. Cancelled classes will be made up as determined by the instructor.

INCLEMENT WEATHER POLICY:

In the event of inclement weather, all students will follow announcements and existing procedures as provided by Fayetteville State University. *As a matter of liability protection and compliance, all students must vacate the CDHS Cybersecurity Academy premises by the announced times of any Fayetteville State University closings. Students will not be permitted access to the facility for any reason, without exception, during periods of official CDHS Cybersecurity Academy Weather Closings.*
