

# Meet the George Washington Carver of Today

Inventor of the “Non-Allergen Peanut”

**Dr. Hortense Dodo** will talk about:

- The non allergenic peanut
- Learning the **science behind her invention**
- How to become a scientific entrepreneur
- Her international journey
- How she will work with faculty and students

Hortense Dodo, PhD

Dr. Dodo is a scientific entrepreneur, inventor, biologist, and university professor. She has developed a patented technology to eliminate allergens from peanuts, one of the most severe and deadly food allergies. Dr. Dodo is also President and CEO of IngateyGen, LLC, and has signed a teaming agreement with FSU to conduct joint research and student mentorship with the Department of Biological Sciences.

**Thursday, February 23rd 2017**

**2:00-3:00 pm**
