An official website of the United States government <u>Here's how you know</u> ~	
Authentication method setup Add a second layer of security so only you can sign in to your account.	
Reep this information safe. You will be locked out and have to create a new account if you lose your authentication method.	
Select an option to secure your account:	
O Security key Use a security key you plug in or that is built in to your computer or phone (it often looks like a USB flash drive). Recommended because it is more phishing resistant.	
Government employee ID Insert your government or military PIV or CAC card and enter your PIN. MORE SECURE	
Authentication application Get codes from an app on your phone, computer, or tablet. Recommended because it is harder to intercept than texts or phone calls. secure	
Phone Get security codes by text message (SMS) or phone call. Please do not use web-based (VOIP) phone services. LESS SECURE	
 Backup codes. We'll give you 10 codes. You can use backup codes as your only authentication method, but it is the least recommended method since notes can get lost. Keep them in a safe place.
