Proposed Parking Rate Adjustments

FAYETTEVILLE STATE UNIVERSITY POLICE AND PUBLIC SAFETY

October 29, 2026

Purpose

This proposal recommends targeted updates to campus parking permit rates, while maintaining current daily and weekly visitor fees. The proposed parking deck rate introduces an hourly option. The adjustments are intended to support parking operations, maintenance, access control, and long-term infrastructure needs. The proposal also introduces event-specific parking rates for football and basketball games.

Proposed Rate Schedule

This analysis is based on a comparative review of parking rates at institutions within our surrounding area, as well as a representative sample of universities across the University of North Carolina (UNC) System.

Classification	Current	Proposed	Change
Student Pass	$70.00	**$100.00**	+$30.00
Student Semester Pass	$35.00	$50.00	+$15.00
Faculty / Staff Pass	$202.00	$220.00	+$18.00
Gated Lot Faculty/Staff Pass	$443.00	$450.00	+$7.00
Vendor / Contractor Pass	$75.00	$90.00	+$15.00
Daily Visitor Pass	$5.00	$5.00	+$0.00
Parking Deck Pass	N/A	**$1.50/hour**	New hourly rate
Weekly Visitor Pass	$15.00	$15.00	+$0.00
Summer Pass	$35.00	$50.00	+$15.00
Reserved Space Pass	$531.00	$540.00	+$9.00

Rationale

Operational sustainability. Modest adjustments to several permit categories will help offset rising costs associated with staffing, enforcement, payment processing, signage, and routine parking-area upkeep.

Infrastructure and access control. Revenue from parking services may support equipment maintenance, gated-lot systems, parking deck operations, and future improvements, consistent with applicable budget and funding restrictions.

Balanced fee structure. The proposal preserves the $5 daily visitor pass and $15 weekly visitor pass, while making targeted changes to other classifications.

Flexible parking deck use. A $1.50 hourly rate offers a usage-based option. This fee would not apply to anyone who purchased a yearly or semester pass.

Athletics and Special Event Parking Rates

The proposal establishes event-specific parking fees for football and basketball games. For all other events, visitors would use the standard daily visitor pass or pay the hourly parking deck rate.

Event parking rationale. Football and basketball games create concentrated vehicle demand and may require additional traffic management, parking coordination, and enforcement. Event specific rates provide a clear, predictable fee structure while retaining lower-cost daily and hourly options for other campus events.

Event classification	Proposed parking charge
Football games	**$10 per vehicle**
Basketball games	**$6 per vehicle**
All other events, surface parking	$5 daily visitor pass
All other events, parking deck	**$1.50 per hour**

Financial and Implementation Considerations

Actual revenue impact cannot be determined from rates alone. Event parking projections should separately account for expected football and basketball attendance, vehicles parked, and other event and deck usage.
