Preface

This is the current edition of the Fayetteville State University Fact Book. It presents Fall 2004 data and statistics about the university. The data presented are extracted from Student Data Files, Personnel Data Files and selected NCHED and IPEDS reports. An electronic version of the publication is available to the general public via the World Wide Web. It can be accessed through the university's home page or directly at the link below. We encourage comments or suggestions for improvement to this Fact Book. Please do not hesitate to contact us.

Special acknowledgments go to Ms. Teresa Covington, Applications Programmer, and Mr. Andrew English, Research Associate, for their outstanding work on this project.

General Information

Statement of Educational Mission

Fayetteville State University is a regional public comprehensive university, offering degrees at the baccalaureate and master's levels and a doctorate in Educational Leadership. The primary mission of Fayetteville State University is to provide quality education to its students through a basic liberal arts foundation, specialized professional training, and specific graduate programs. Committed to excellence in teaching, research, and service to the community, the university seeks to prepare its students and graduates to lead meaningful and productive lives. In doing so, Fayetteville State University strives to produce creative thinkers and leaders who will reach beyond current intellectual and cultural boundaries to become change agents for shaping the future of the nation and the world.

As a part of its broader mission, the university extends its services as a regional institution by providing life-long learning experiences and opportunities to the university's immediate and extended communities and serving as a resource for business, education, and culture in North Carolina.

Philosophy and Values

Fayetteville State University is committed to educating students in the liberal arts tradition and to the belief that the intellectual life of the student is to be cultivated for the good of the individual and humankind. The university embraces the philosophical and educational beliefs that a strong liberal arts education should foster in students the independence of mind, clarity of thought, and depth of spiritual vision that will inspire them to contribute integrally to the good of society and the quality of life for all of humankind.

In keeping with these beliefs, Fayetteville State University strives to prepare students to think critically, to appreciate the arts, to express themselves creatively, and to make independent and rational judgments. The university also endeavors to cultivate in students a respect for the earth and its peoples, engendering in them both an appreciation of the diverse cultures around the globe and a sense of responsibility for preserving the earth and its treasures.

Through disciplined scholarship and creativity, students are prepared to compete in and contribute to both the artistic world and the world of the marketplace while maintaining high standards in their personal and professional lives. In short, Fayetteville State University aspires to cultivate intellectual growth and excellence of scholarship, inculcating in students a love of truth, of beauty, and of goodness to attune them to a lifelong pursuit of the ideals of learning, of humane values, and of selfless service to humankind.

History of Fayetteville State University

When the Civil War ended in 1865, an education agenda in Fayetteville's Black community was already underway. A year after the Civil War ended, the Phillips School provided primary education to Fayetteville's black citizens, and the Sumner School provided intermediate education. The two schools were consolidated in 1869 and dedicated in April of that year as the Howard School, in honor of the Freedman's Bureau chief General O. O. Howard. Seven prominent African-American men—Mathew N. Leary, A. J. Chesnutt, Robert Simmons, George Grainger, Thomas Lomax, Nelson Carter, and David A. Bryant - pooled \$136 to purchase two lots for the first building that housed the Howard School.

African-American students at the Phillips and Sumner schools were taught fundamentals—reading, writing, arithmetic, and practical skills. Building on the curriculum, the leadership of the Howard School added geography and science classes, the latter after its first telescope was acquired. Even then, the community understood the opportunity and the obligation to “build on strengths.” All of this occurred in the midst of an economic depression that threatened the entire town. “Remarkably, Fayetteville blacks continued to contribute to the school's operation, demonstrating the resilience of the community as well as the importance that it attached to education.”

The most enduring legacy of Robert Harris, the first leader of the Howard School, was in the training of teachers. Waves of students sought to be educated at the school, and teachers were in short supply. Out of necessity, Harris began to train teachers for the Howard School and for the small rural schools in Cumberland and surrounding counties.

By the time that Governor Zebulon Vance decided to establish two state normal schools—one for African-American teachers in Fayetteville and one for white teachers at the University of North Carolina at Chapel Hill, the Howard School had already been operating as a normal school for a full decade. The year that the first two state normal schools in North Carolina were established was 1877, and the Howard School that year became not just the first public normal school for African Americans in North Carolina but also the first state-sponsored institution for the education of African-American teachers in the South.

By a legislative act of 1877, the North Carolina General Assembly provided for the establishment of a Normal School for the education of Black teachers. The Howard School was chosen as the most promising because of its successful record during the previous ten years. It was designated a teacher training institution, and its name was changed to the State Colored Normal School. Five Administrative Officers served for relatively short periods until 1899: Robert L. Harris, Charles W. Chesnutt, Ezekiel E. Smith, George Williams, and the Rev. L. E. Fairley.

In 1899, Dr. Smith returned to the institution. Under his administration, the school grew from three rooms in a small frame structure to a physical plant of ten buildings on a fifty-acre tract of land. In order to pay for the land, Dr. Smith, along with F. D. Williston, E. N. Williams, J. G. Smith and Dr. P. N. Melchor, endorsed a note for \$3,000.00. The note was renewed several times and eventually paid off by Dr. Smith, who later deeded the land to the State. Dr. Smith retired in 1933 at the age of 80 with more than 40 years of service to the institution.

Dr. J. Ward Seabrook succeeded Dr. Smith and under his presidency the school became Fayetteville State Teachers College, thereafter being authorized to grant the Bachelor of Science degree in Education. The college received both state and regional accreditation in 1947. Dr. Seabrook retired in 1956 and was succeeded by Dr. Rudolph Jones. During his administration, the curriculum was expanded to include majors in secondary education and programs leading to degrees outside the teaching field. The name of the school was changed to Fayetteville State College in 1963. Also, under the leadership of Dr. Jones, six additions were made to the physical plant to accommodate a rapidly expanding enrollment.

In 1969, the institution acquired its present name, "Fayetteville State University," and Dr. Charles "A" Lyons, Jr. was elected president. By a legislative act in 1972, Fayetteville State University became a constituent institution of the University of North Carolina System, and Dr. Lyons became its first chancellor. During his tenure, the curriculum was expanded to include a variety of both baccalaureate and master's level programs. In addition, the Fort Bragg-Pope AFB Extension Center, in conjunction with the Weekend and Evening College, was established in order to provide military personnel and other persons employed full-time with the opportunity to further their education. The general academic structure took its present configuration in 1985 when the university became a Comprehensive Level I Institution. In addition to expanding program offerings and services, eight buildings were added to the physical plant during this period.

On January 1, 1988, Dr. Lloyd V. Hackley became the seventh Chief Executive Officer of the university. In his seven years as Chancellor, the university expanded its master's level program offerings to include biology, business administration, education, English, history, mathematics, psychology, sociology, and teaching; FSU's first doctoral program in Educational Leadership was established; and, baccalaureate program offerings were also increased to include 36 disciplines in the arts and sciences, business and economics, and education. The addition of the \$6.3 million ultra-modern School of Business and Economics Building, and the new \$10.9 million Health and Physical Education Building, underscored Dr. Hackley's commitment to FSU's continued expansion and growth.

Chancellor Hackley strengthened FSU's community outreach to at-risk children in the public schools, establishing numerous scholarship and tutoring/mentoring programs to encourage more young people to aspire to academic excellence and a college education. FSU's first major public capital campaign was also completed during Dr. Hackley's tenure, which enabled the university to increase the number of privately funded scholarships. On December 31, 1994, Dr. Hackley left his post to become President of the North Carolina Department of Community Colleges, the first African-American to lead the state's system of 59 community colleges. Dr. Donna J. Benson, Associate Vice President for Academic Affairs of the University of North Carolina served as Interim Chancellor from January 1, 1995 to November 15, 1995.

Dr. Willis McLeod, a 1964 graduate of Fayetteville State University, was appointed Chancellor on November 15, 1995. Dr. McLeod is the ninth Chief Executive Officer of the 130-year-old institution, and the first alumnus to serve as Chancellor since FSU became a constituent of The University of North Carolina in 1972. Dr. McLeod earned his master's and doctoral degrees in school administration from the University of Virginia, and has over

30 years of experience in education as a teacher, assistant superintendent, and superintendent of public school systems in Virginia, Louisiana, and North Carolina.

Several major initiatives have been established by Dr. McLeod to lead FSU into the 21st century. The “Freshman Year Initiative,” (or F.Y.I.) a program designed to enhance students’ educational outcomes, was initiated in fall 1996; new outreach efforts aimed at forging stronger community ties and involving the community in University life have been undertaken; campus improvements such as expansion of the Rudolph Jones Student Center and master planning to accommodate an expected enrollment increase of 50%; and Dr. McLeod has been instrumental in forming a regional partnership of public school, community college, and university leaders to focus on strengthening the educational pipeline from pre-school to post-graduate studies.

Dr. T. J. Bryan was appointed Chancellor on June 18, 2003. Dr. Bryan is the tenth Chief Executive Officer of the 136-year-old institution, and the first female to head the institution. She is also the first African-American woman to lead a UNC institution. In recommending Bryan to the Board of Governors, President Broad said: *“T.J. Bryan brings to Fayetteville State University great energy, enthusiasm, and a proven record of administrative success at the campus level and in two highly respected public university systems. The proud product of an HBCU, she has demonstrated a passionate commitment to sustaining the special mission of these institutions. Throughout a career that spans two decades, a signature of her leadership has been her advocacy of minority student achievement, educational access and equity, and strong faculty support. I am confident she is the right person to lead FSU through a period of dramatic growth and transformation.”*

The hallmark of her first year has been an emphasis on “building on strengths”. She has issued a call to action—on all academic fronts. She has fostered academic-program development; currently new programs are being developed in forensic science, biotechnology, communications, and management information systems. On Chancellor Bryan’s direction, a generic program in nursing was developed and fully approved in seven months. Additionally, a new Honors Program has been established. She has mandated that specialized accreditation be sought for all academic programs when such accreditation is available. Chancellor Bryan has required that all academic units have 90% of full-time faculty with terminal degrees by fall 2005. Also, during her first year, the university improved its service to students in an array of ways, including an extension of hours in key areas—Registrar, Admissions, Graduate School, Financial Aid, Cashier, Weekend and Evening College, Book Store. An 18 x 7 computer laboratory has been made available to students. Shared governance has increased, as processes have become increasingly transparent.

Dr. Bryan’s top priorities include developing new academic programs, obtaining specialized accreditation, strengthening student recruitment and support programs, establishing a first-rate international studies program, increasing funds from external sources, and improving physical facilities.

Definitions: The Academic Year includes Fall and Spring terms. It excludes all Summer terms. "Need" in this report is the calculated need using the Federal Methodology adjusted to reflect the number of semesters that a student was actually enrolled as an in-state undergraduate. "Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

Fayetteville State University

On November 7, 2000 North Carolina voters overwhelmingly supported the \$3.1-billion Higher Education Improvement Bonds. This historic investment will allow the 16-campus University of North Carolina and the 59 community college campuses to continue to provide the highest educational and economic opportunities for our citizens. The voters of North Carolina delivered an unmistakable expression of their values and priorities for the future. We are grateful for that support.

The infrastructure of the university will continue to change as the bond projects are completed through 2006.
