General Information

Statement of Educational Mission

Fayetteville State University (FSU) is a public comprehensive regional university that promotes the educational, social, cultural, and economic transformation of southeastern North Carolina and beyond. The primary mission of FSU is to provide students with the highest quality learning experiences that will produce global citizens and leaders as change agents for shaping the future of the State. Awarding degrees at the baccalaureate, master's, and doctoral levels, FSU offers programs in teacher education, the arts and sciences, health professions, business and economics, and unique and emerging fields. FSU is an institution of opportunity and diversity. Committed to excellence in teaching, research, scholarship, and service, the university extends its services and programs to the community, including the military, and other educational institutions throughout North Carolina, the nation, and the world.

Philosophy and Values

Fayetteville State University is committed to educating students in the liberal arts tradition and to the belief that the intellectual life of the student is to be cultivated for the good of the individual and humankind. The university embraces the philosophical and educational beliefs that a strong liberal arts education should foster in students the independence of mind, clarity of thought, and depth of spiritual vision that will inspire them to contribute integrally to the good of society and the quality of life for all of humankind.

In keeping with these beliefs, Fayetteville State University strives to prepare students to think critically, to appreciate the arts, to express themselves creatively, and to make independent and rational judgments. The university also endeavors to cultivate in students a respect for the earth and its peoples, engendering in them both an appreciation of the diverse cultures around the globe and a sense of responsibility for preserving the earth and its treasures.

Through disciplined scholarship and creativity, students are prepared to compete in and contribute to both the artistic world and the world of the marketplace while maintaining high standards in their personal and professional lives. In short, Fayetteville State University aspires to cultivate intellectual growth and excellence of scholarship, inculcating in students a love of truth, of beauty, and of goodness to attune them to a lifelong pursuit of the ideals of learning, of humane values, and of selfless service to humankind.

History of Fayetteville State University

In 1867, seven Black men - Matthew N. Leary, A. J. Chesnutt, Robert Simmons, George Grainger, Thomas Lomax, Nelson Carter, and David A. Bryant - paid \$136 for two lots on Gillespie Street and converted themselves into a self-perpetuating Board of Trustees to maintain this property permanently as a site for the education of Black children in Fayetteville. General O. O. Howard of the Freedman's Bureau, one of the bestknown friends of Black education, erected a building on this site, and the institution became known as the Howard School.

By a legislative act of 1877, the North Carolina General Assembly provided for the establishment of a Normal School for the education of Black teachers. The Howard School was chosen as the most promising because of its successful record during the previous ten years. It was designated a teacher training institution, and its name was changed to the State Colored Normal School. Five Administrative Officers served for relatively short periods until 1899: Robert L. Harris, Charles W. Chesnutt, Ezekiel E. Smith, George Williams, and the Rev. L. E. Fairley.

In 1899, Dr. Smith returned to the institution. Under his administration, the school grew from three rooms in a small frame structure to a physical plant of ten buildings on a fifty-acre tract of land. In order to pay for the land, Dr. Smith, along with F. D. Williston, E. N. Williams, J. G. Smith and Dr. P. N. Melchor, endorsed a note for \$3,000.00. The note was renewed several times and eventually paid off by Dr. Smith, who later deeded the land to the State. Dr. Smith retired in 1933 at the age of 80 with more than 40 years of service to the institution.

Dr. J. Ward Seabrook succeeded Dr. Smith and under his presidency the school became Fayetteville State Teachers College, thereafter being authorized to grant the Bachelor of Science degree in Education. The college received both state and regional accreditation in 1947.

Dr. Seabrook retired in 1956 and was succeeded by Dr. Rudolph Jones. During his administration, the curriculum was expanded to include majors in secondary education and programs leading to degrees outside the teaching field. The name of the school was changed to Fayetteville State College in 1963. Also, under the leadership of Dr. Jones, six additions were made to the physical plant to accommodate a rapidly expanding enrollment.

In 1969, the institution acquired its present name, "Fayetteville State University," and Dr. Charles "A" Lyons, Jr. was elected president. By a legislative act, Fayetteville State University became a constituent institution of the University of North Carolina System in 1972 and Dr. Lyons became its first chancellor. During his tenure, the curriculum was expanded to include a variety of both baccalaureate and master's level programs. In addition, the Fort Bragg-Pope AFB Extension Center, in conjunction with the Weekend and Evening College, was established in order to provide military personnel and other persons employed full-time with the opportunity to further their education. The general academic structure took its present configuration in 1985 when the university became a Comprehensive Level I Institution. In addition to expanding program offerings and services, eight buildings were added to the physical plant during this period.

On January 1, 1988, Dr. Lloyd V. Hackley became the seventh Chief Executive Officer of the university. In his seven years as Chancellor, the university expanded its master's level program offerings to include biology, business administration, education, English, history, mathematics, psychology, sociology, and teaching; FSU's first doctoral program in Educational

Leadership was established; and, baccalaureate program offerings were also increased to include 36 disciplines in the arts and sciences, business and economics, and education. The addition of the \$6.3 million ultra-modern School of Business and Economics Building, and the new \$10.9 million Health and Physical Education Building, underscored Dr. Hackley's commitment to FSU's continued expansion and growth.

Chancellor Hackley strengthened FSU's community outreach to at-risk children in the public schools, establishing numerous scholarship and tutoring/mentoring programs to encourage more young people to aspire to academic excellence and a college education. FSU's first major public capital campaign was also completed during Dr. Hackley's tenure, which enabled the university to increase the number of privately funded scholarships. On December 31, 1995, Dr. Hackley left his post to become President of the North Carolina Department of Community Colleges, the first African-American to lead the state's system of 59 community colleges. Dr. Donna J. Benson, Associate Vice President for Academic Affairs of the University of North Carolina served as Interim Chancellor from January 1, 1995 to November 15, 1995.

Dr. Willis McLeod, a 1964 graduate of Fayetteville State University, was appointed Chancellor on November 15, 1995. Dr. McLeod was the ninth Chief Executive Officer of the 130-year-old institution, and the first alumnus to serve as Chancellor since FSU became a constituent of The University of North Carolina in 1972. Dr. McLeod earned his master's and doctoral degrees in school administration from the University of Virginia, and has over 30 years of experience in education as a teacher, assistant superintendent, and superintendent of public school systems in Virginia, Louisiana, and North Carolina.

Several major initiatives were established by Dr. McLeod. The "Freshman Year Initiative," (or F.Y.I.) a program designed to enhance students' educational outcomes, was initiated in fall 1996; new outreach efforts aimed at forging stronger community ties and involving the community in University life were undertaken; campus improvements such as expansion of the Rudolph Jones Student Center and master planning to accommodate an expected enrollment increase of 50%; and Dr. McLeod was instrumental in forming a regional partnership of public school, community college, and university leaders to focus on strengthening the educational pipeline from pre-school to post-graduate studies.

Dr. T. J. Bryan assumed the position of Chancellor on July 1, 2003. The tenth chief executive officer of the university, Dr. Bryan was the first woman to serve as chancellor and the first African-American woman selected to lead a constituent institution of the University of North Carolina. Dr. Bryan earned the B.A. and M.A. from Morgan State College and the Ph.D. from the University of Maryland at College Park. Prior to appointment as chancellor, she served as a faculty member, department chair, and dean at Coppin State College. She also served as Associate Vice President for Academic Affairs for the University System of Maryland and Vice President for Academic and Student Affairs for the Pennsylvania State System of Higher Education.

Dr. Bryan's top priorities included developing new academic programs, obtaining specialized accreditation, strengthening student recruitment and support programs, establishing a first-rate international studies program, increasing funding from external sources, and improving physical facilities. Under her leadership, a four-year nursing program and an Honors Program were established.

Dr. James A. Anderson was named the 11th Chief Executive Officer of Fayetteville State University on April 3, 2009. Dr. Anderson, who comes to FSU from the University of Albany in

New York, began his duties as Chancellor of the state's second-oldest public institution on June 9, 2008. The appointment was made by Erskine Bowles, President of the 17-campus University of North Carolina System.

Definitions: The Academic Year includes fall (winter at NCSA) and spring terms. It excludes all summer terms. "Need" in this report is the calculated need using the Federal Methodology adjusted to reflect the number of semesters that a student was actually enrolled as an in-state undergraduate. "Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

Pct With Any Loans	1.4
Average Amount/ Year: All Loans	3,722

Definitions: The Academic Year includes Fall (Winter at NCSA) and Spring terms. It excludes all Summer terms. "Need" in this report is the calculated need using the Federal Methodology adjusted to reflect the number of semesters that a student was actually enrolled as an in-state undergraduate. "Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

"Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

The Economic Impact of Fayetteville State University

Fayetteville State University is an important source of economic activity in the greater Fayetteville region's economy.¹ The university impacts the region's economy through its own spending and through the spending associated with its students and the out-of-region visitors to its campus. In order to analyze the economic impact of this spending, it is first necessary to identify where the spending associated with the university occurs. It is then necessary to adjust the estimated spending figures to reflect only "net new" economic activity attracted into the greater Fayetteville region by the University. The major types of spending associated with Fayetteville State University are presented in Table 1.

(2) No data on the geographic distribution of spending was available - assumed to be distributed as procurement.

Source: FSU and the Jacob France Institute

As presented in Table 1, there is just over \$120.5 million in total spending activity associated with the operations of Fayetteville State University. However, this spending does not represent the actual impact of the university on the state or the region. Some of the spending associated with the university occurs outside of the region. For example, spending by faculty, staff, or students living outside of the region, or university purchases made from out-of-region suppliers. These expenditures are not included in the economic analysis. After these are excluded, we have an estimate of the direct impact that the university has on the region. This direct spending represents income to residents and businesses in the greater Fayetteville region

¹ The greater Fayetteville region analyzed for this report includes Cumberland, Harnett, Sampson, Bladen, Robeson, Hoke, Moore and Wake Counties. The geographic area analyzed in this report was expanded to add Wake county spending to the modeling and analysis. As a result, the economic impact calculations in this report are not comparable to the FY2004 report.

that would not occur in the absence of the university. These “net new” expenditures are, in-turn, earned and re-spent by other regional residents and businesses in several successive cycles of economic activity, thus creating so-called “multiplier” effects in the regional economy. After adjusting the spending figures, the \$97.1 million in regional spending constitutes the direct university-related spending that impacts the Fayetteville regional economy. This spending represents the direct effects of the university, which are subject to multiplier effects.

University operating expenditures include the payroll and purchases made by the university. Ninety-four percent (94%) of the university’s total payroll expenditures are paid to the university employees that reside in the Greater Fayetteville region. While 69% of the university’s total procurement spending of \$32.8 million is paid to suppliers in North Carolina (\$22.7 million), only \$12.6 million (39%) is paid to suppliers in the Greater Fayetteville region. Thus, a total of \$44.1 million of the university’s \$66.3 million in operating expenditures are spent in the Greater Fayetteville region (81%) and a total of 91% of the university’s operating expenditures are spent in North Carolina.

University capital expenditures consist of the construction and major renovation expenditures made by Fayetteville State University. The university had total capital and construction expenditures of \$10 million in fiscal 2006.

University Foundation/Other expenditures consist of spending by the university foundation and other units outside of the procurement system. FSU had University Foundation/Other expenditures of \$2.1 million. No data on the geographic distribution of this spending was available, thus it was distributed in the same manner as university procurement expenditures.

Student expenditures represent the living expenses of Fayetteville State University’s full-time graduate and undergraduate students. Part-time students are not included in this analysis since it is assumed that most of these students already live in the region and their spending, therefore, does not represent new spending in the region’s economy.² The university’s Office of Financial Aid provided information on the residency, estimated living expenses, and place of residence for undergraduate and graduate students. According to the data provided there are a total of 6,070 full time students in the area attending the university. Annual student living expenses were estimated at \$6,440 per student. Multiplying the number of students (6,070) by the estimated living expenses of \$6,040 yields an estimated \$39.1 million in total student living expenses.

Visitor expenditures represent the spending by out-of-region visitors attracted into the Greater Fayetteville area by Fayetteville State University. It is difficult to estimate the number of out-of-state visitors and their spending. Numerous formal and informal events occur on campus. The university attracted visitors for sporting events, conferences, symposia, and academic events, as well as, admission visits and student visitors. In fiscal 2006, visitor expenditures were estimated at \$3 million.

² Some part-time students do commute into the Fayetteville region from outside of the region, and the local spending of these students could be included in this analysis. Furthermore, many part-time students have been attracted into North Carolina by the programs available at Fayetteville State University. No data on this spending, however, was available. Thus, the overall impact of student expenditures is likely to be undercounted in this report.

1.1 The Economic Output Impact of Fayetteville State University

The expenditures associated with Fayetteville State University are circulated within the region's economy and become income for businesses and residents. This creates "spin-off" or "multiplier" effects as this money is spent and then re-spent in the regional economy. Thus, each dollar of new spending creates more than one dollar in economic impact, as that spending is earned and, in-turn, spent by others within the region.

Once the level of new expenditures in the economy is known, it can be entered into an economic model to determine the change in economic output (a measure similar to gross national product (GNP), which measures the level of economic activity in a region/state), employment, and earnings attributable to Fayetteville State University.³ The estimated economic output impact of the university is presented in Table 2. Direct impacts are the changes in economic activity directly attributable to the university. Indirect impacts are the "spin-off" or "multiplier" effects caused by the introduction of a new spending stream into the local economy.

Total university, affiliated institution, associated student and visitor expenditures of \$97.1 million are leveraged with an additional \$98.3 million in indirect spending for a combined total impact of \$195.4 million. University operation and foundation/other expenditures account for the half of the overall regional economic impact generated by the university. Student expenditures account for 36% of the university's impact, capital expenditures account for 11% and out-of-state visitor expenditures account for 3% of the impact.⁴

³ The Jacob France Institute used the RIMS II Input-Output model from the U.S. Bureau of Economic Analysis.

⁴ No multipliers for students or visitors exist in the RIMS II model. In order to estimate the economic impact of this spending, blended multipliers were derived for each category of spending based on average spending by major expenditure category by students (from the U.S. Department of Labor's Consumer Expenditure Survey) and by visitors.

1.2 The Employment and Earnings Impacts of Fayetteville State University

As demonstrated in Table 3, Fayetteville State University directly employs a total of 919 workers in the region, while the \$10 million in-region construction expenditures creates an estimated 92 construction related jobs. The total University operating, construction, student and visitor and affiliated institution spending supports an additional 1,505 jobs through indirect or spin-off employment, for a total of 2,516 jobs directly or indirectly supported by the university. As demonstrated in Table 4, there is a total of \$81.1 million in salaries and wages associated with these 2,516 jobs, which is comprised of \$36.7 million in direct salaries and wages and \$44.4 million in salaries and wages for the jobs indirectly created or supported by the university.

1.3 The Fiscal Impact of Fayetteville State University

Fayetteville State University also impacts the fiscal health of the region. The salaries and wages earned by the university’s employees and the jobs created and sustained through University spending are subject to taxes. Many of the purchases made by university employees, the persons directly or indirectly supported by the university as well as by students and visitors are also subject to sales tax. In order to estimate local fiscal impacts, total property tax, sales and services, and sales tax collections for the region were divided by the total personal income of the region to estimate an effective tax rate for the region. The effective tax rate was multiplied by the employee compensation impacts listed in Table 4 to derive the estimated fiscal impacts. To this was added the estimated taxes paid by students and visitors. The total regional property, sales and services, and sales tax receipts across all counties in the region resulting from university-related regional expenditures and their related economic impacts are an estimated \$3.0 million. It was outside of the scope of this analysis to conduct a full fiscal impact analysis. This analysis looked at only sales, sales and services, and property taxes, which are the major sources of local revenue in North Carolina counties. According to the U.S. Bureau of the Census, these taxes account for 95% of total local government revenue from own sources. These figures do not include the added tax benefits to the state and the region derived from the increased earnings of university graduates or the corporate income taxes paid by companies. Thus, these figures in Table 5 only represent a portion of the total fiscal impact of Fayetteville State University.

Table 5
Fiscal Impact of Fayetteville State University
On the Greater Fayetteville Region, FY 2006
(Millions of Dollars)

Item	Direct Impacts	Indirect Impacts	Total Impacts
Total Greater Fayetteville Region Local Government Revenues	1.9	1.1	3.0

Source: FSU and The Jacob France Institute

The fiscal impact of Fayetteville State University can also be analyzed in terms of the level of economic output leveraged by the state appropriations. Universities, unlike other state government activities, attract a substantial portion of their revenues from other sources. The university attracts significant other sources of revenues, such as, tuition, research grants, and private gifts. This leveraging of state appropriations, combined with the economic impacts discussed above, leads to a high return on state expenditures. Dividing the total economic output impacts of the university by the state’s appropriation provides an estimate of the economic return on the state’s investment in Fayetteville State University. This is also a conservative estimate since the economic impact of the university was only calculated for the Greater Fayetteville

Region. Using this figure, the university generates \$3.97 in regional economic activity for every \$1.00 in state appropriations.

Fayetteville State University is in a constant state of expansion and change that has and will continue to enhance the well-being of students, faculty, and staff. Campus buildings such as the Collins Building and Lilly Gymnasium have been and in the case of the Collins Building are still under renovation.

The infrastructure of the university will continue to change and these changes will only enhance campus life for all those who are part of the FSU family.

Fayetteville State University is a member institution of The University of North Carolina, which is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, sex, age, or disability.
