Statement of Educational Mission

Fayetteville State University (FSU) is a public comprehensive regional university that promotes the educational, social, cultural, and economic transformation of southeastern North Carolina and beyond. The primary mission of FSU is to provide students with the highest quality learning experiences that will produce global citizens and leaders as change agents for shaping the future of the State. Awarding degrees at the baccalaureate and master's levels, and the doctorate in educational leadership, FSU offers programs in teacher education, the arts and sciences, health professions, business and economics, and unique and emerging fields. FSU is an institution of opportunity and diversity. Committed to excellence in teaching, research, scholarship, and service, the university extends its services and programs to the community, including the military, and other educational institutions throughout North Carolina, the nation, and the world. (*Approved by UNC Board of Governors, October 9, 2009.*)

FSU Core Values

- **Student Success and the Pursuit of Excellence**
We believe in student success and the obligation of the university to provide the highest quality learning experiences and academic programs to facilitate student success, intellectual and cultural growth, excellence in scholarship, leadership, and ethical standards.
- **Shared Governance**
We believe in shared governance, fiscal responsibility, a commitment to life-long learning, and professional development for faculty, staff, and students.
- **Global Responsibility**
We believe in respect for diversity, global responsibility, conservation of natural resources, and a commitment to sustainability.
- **Collaboration**
We believe in outreach, partnerships with educational institutions, the military, and the community, economic transformation of the state, and service to others.

FSU Strategic Priorities 2009 - 2014

1. Graduation and Retention Rates
2. Economic Transformation
3. Intellectual and cultural center
4. Leadership and global citizens
5. Collaboration and Partnerships
6. Fiscal resourcefulness and sustainability

History of Fayetteville State University

In 1865, a “sophisticated” education agenda was already underway in Fayetteville’s black community. A year after the Civil War ended, the Phillips School provided primary education to Fayetteville’s black citizens, and the Sumner School provided intermediate education for this population. The two schools were consolidated in 1869 and dedicated in April of that year as the Howard School, in honor of the Freedman’s Bureau chief General O. O. Howard. Seven prominent African-American men pooled \$136 to purchase two lots for the first building that housed the Howard School.

African-American students at the Phillips and Sumner schools were already being taught fundamentals - reading, writing, arithmetic, and practical skills. Building on the curriculum, the leadership of the Howard School added geography and science classes, the latter after its first telescope was acquired. Even then, the community understood the opportunity and the obligation to “build on strengths.” All of this progress occurred in the midst of an economic depression that threatened the entire town. Remarkably, African Americans in Fayetteville continued to donate funds to support the school, demonstrating the high value the black community placed on education.

The first leader of the Howard School was Robert Harris; his enduring legacy was in the training of teachers. Not only were students trained to become teachers at the Howard School, but they were also trained to serve as teachers in small rural schools in Cumberland and surrounding counties.

1867 Seven visionary Black citizens of Fayetteville, North Carolina pay \$136.00 for two lots on Gillespie Street and form among themselves a self-perpetuating Board of Trustees to maintain the property for the education of Black youth. The seven Founders are David A. Bryant, Nelson Carter, Andrew J. Chesnutt, George Grainger, Matthew Leary, Thomas Lomax, and Robert Simmons. Robert Harris is named the first principal of the Howard School.

1877 An act of the legislature provides for the establishment of a teacher training institution for Black North Carolinians. The Howard School in Fayetteville is selected to become the State Colored Normal School, and thus becomes the first and oldest state-supported institution of its kind in North Carolina.

In 1877, the Howard School became not just the first public normal school for African Americans in North Carolina but also the first state-sponsored institution for the education of African-American teachers in the South. It was renamed the State Colored Normal School in Fayetteville that year, Fayetteville State Teachers College in 1939, Fayetteville State College in 1963, and Fayetteville State University in 1969.

1880 Charles W. Chesnutt is appointed Principal of the State Colored Normal School upon the death of Robert Harris. After three years in office, Chesnutt resigns to move to Cleveland, Ohio, where he passes the Ohio Bar and begins a law practice. His literary career begins in earnest in 1889 when *The Conjure Woman*, a collection of his stories is published. It is followed by *The Life of Frederick Douglass*, and many other novels and short stories. In 1928 he is awarded the coveted

Springarn Medal, at that time given annually by the NAACP for distinguished achievement.

1883 Dr. Ezekiel Ezra Smith, 31 years of age and a graduate of Shaw Collegiate Institute in Raleigh, is appointed Principal upon the resignation of Charles W. Chesnutt.

1888 President Grover Cleveland appoints Dr. E.E. Smith as Minister Resident and Consul General of the United States to Liberia, in which capacity he serves for two years. George H. Williams assumes the duties of Principal of the State Colored Normal School.

1895 Dr. E.E. Smith returns to Fayetteville as Principal of the State Colored Normal School. Prior to this he had organized the first newspaper for Black North Carolinians, the Carolina Enterprise, in Goldsboro.

1898 Dr. Smith obtains a leave of absence for the purpose of serving as Regimental Adjutant of the Third North Carolina Volunteer Infantry during the Spanish-American War. During his absence his work is carried on by the Reverend L. E. Fairly. Dr. Smith returns to his duties in 1899. During Dr. Smith's long and distinguished tenure, the institution moves to its permanent site on Murchison Road in 1907. Later, Dr. Smith and his wife deed additional land to the state to bring the institution's holding to 92 acres. The campus grows to eight buildings and several cottages. All high school work is discontinued in 1929 and the title of Principal is changed to President. Dr. E.E. Smith retires on June 30, 1933 and is elected head Emeritus.

1933 Dr. J. Ward Seabrook is elected President. Under his leadership the institution becomes a four-year college, is renamed Fayetteville State Teachers College in 1939, and earns both state and regional accreditation. Dr. Seabrook retires in 1956 and is elected President Emeritus.

1956 Dr. Rudolph Jones succeeds Dr. Seabrook as President. Advances made during his tenure include the revision of the charter in 1959 authorizing the expansion of the curriculum to include programs leading to degrees outside the teaching field; adoption of the name Fayetteville State college in 1963; and significant additions to the physical plant to accommodate growing enrollment. Dr. Jones retires and is elected President Emeritus in 1969.

1969 Dr. Charles "A" Lyons, Jr. becomes President, the college is named Fayetteville State University, and it is designated a regional university by an act of the legislature. Dr. Lyons becomes the first Chancellor when Fayetteville State University is made a constituent institution of The University of North Carolina by legislative act in 1972. The University becomes a Comprehensive Level I institution offering a variety of baccalaureate and master's degree programs, and the Continuing Education program and the Ft. Bragg - Pope AFB Education Center are established. Dr. Lyons retires in 1987.

1988 Dr. Lloyd V. Hackley is named the seventh Chief Executive Officer of Fayetteville State University. He actively pursued initiatives to further expand program offerings and improve the campus environment in response to the needs and interests of students and the community. FSU master's level program offerings expanded to 15; FSU's first doctoral program in Educational Leadership was established; and baccalaureate program offerings were increased to 36 disciplines in the arts and sciences, business and economics, and education. The addition of the \$6.3 million ultra-modern School of Business and Economics Building and the new \$10.9 million Health and Physical Education Building underscored Dr. Hackley's commitment to FSU's continued expansion and growth. He also strengthened FSU's community outreach to at-risk children in the public schools, establishing numerous scholarship and tutoring/mentoring programs to encourage more young people to aspire to academic excellence and a college education. FSU's first major public capital campaign was completed during Dr. Hackley's tenure, and enabled FSU to increase the number of privately funded scholarships available to students. On December 31, 1994, Dr. Hackley left his post at FSU to become President of the North Carolina Department of Community Colleges, the first African-American to lead the state's system of 59 community colleges. Dr. Donna J. Benson, Associate Vice President for Academic Affairs for The University of North Carolina, is appointed by UNC President C. D. Spangler to serve as Interim Chancellor.

1995 The University of North Carolina Board of Governors elects Dr. Willis B. McLeod, FSU Class of 1964, as the ninth leader and first alumnus Chancellor of FSU, effective November 15, 1995. Dr. McLeod's major initiatives include a new "Freshman Year Initiative," or "F.Y.I." program designed to enhance students' educational outcomes; new outreach efforts aimed at strengthening community ties and involving the community in university life; campus improvements including \$46 million in Higher Education Improvement Bond Projects underway; forming a regional partnership of public school, community college, and university leaders to focus on enhancing the educational outcomes for pre-K through 16 students; and initiatives funded by the U.S. Department of Housing and Urban Development to revitalize the neighborhoods surrounding the FSU campus. After serving his alma mater for eight years, Dr. McLeod steps down from the position of Chancellor on June 30, 2003.

2003 Dr. T. J. Bryan is named the tenth chief executive officer of Fayetteville State University and the first woman elected by The University of North Carolina Board of Governors to lead the 136-year-old institution as Chancellor. She is also the first African-American woman appointed as head of a University of North Carolina institution.

2008 Dr. James A. Anderson is named the 11th Chief Executive Officer of Fayetteville State University on March 7, 2008. Dr. Anderson, who comes to FSU from the University of Albany in New York, began his duties as Chancellor of the state's second-oldest public institution on June 9, 2008. The appointment was made by Erskine Bowles, President of the 17-campus University of North Carolina System.

Pct With Any Loans	1.4
Average Amount/ Year: All Loans	3,722

Definitions: The Academic Year includes Fall (Winter at NCSA) and Spring terms. It excludes all Summer terms. "Need" in this report is the calculated need using the Federal Methodology adjusted to reflect the number of semesters that a student was actually enrolled as an in-state undergraduate. "Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

Average Amount/ Year: All Loans	4,957

Definitions: The Academic Year includes Fall (Winter at NCSA) and Spring terms. It excludes all Summer terms. "Need" in this report is the calculated need using the Federal Methodology adjusted to reflect the number of semesters that a student was actually enrolled as an in-state undergraduate. "Unmet Need" is that portion of Need that exceeds gift aid (Scholarships and Grants). All percentages are the percent of the unduplicated headcount of the in-state undergraduates shown in the first column. Average loan amounts are calculated for those with loans (excluding PLUS loans), not for all in-state undergraduates.

The Economic Impact of Fayetteville State University

Fayetteville State University is an important source of economic activity in the greater Fayetteville region's economy.¹ The university impacts the region's economy through its own spending and through the spending associated with its students and the out-of-region visitors to its campus. In order to analyze the economic impact of this spending, it is first necessary to identify where the spending associated with the university occurs. It is then necessary to adjust the estimated spending figures to reflect only "net new" economic activity attracted into the greater Fayetteville region by the University. The major types of spending associated with Fayetteville State University are presented in Table 1.

Source: FSU and the Jacob France Institute

As presented in Table 1, there is just over \$120.5 million in total spending activity associated with the operations of Fayetteville State University. However, this spending does not represent the actual impact of the university on the state or the region. Some of the spending associated with the university occurs outside of the region. For example, spending by faculty, staff, or students living outside of the region, or university purchases made from out-of-region suppliers. These expenditures are not included in the economic analysis. After these are excluded, we have an estimate of the direct impact that the university has on the region. This direct spending represents income to residents and businesses in the greater Fayetteville region

¹ The greater Fayetteville region analyzed for this report includes Cumberland, Harnett, Sampson, Bladen, Robeson, Hoke, Moore and Wake Counties. The geographic area analyzed in this report was expanded to add Wake county spending to the modeling and analysis. As a result, the economic impact calculations in this report are not comparable to the FY2004 report.

that would not occur in the absence of the university. These “net new” expenditures are, in-turn, earned and re-spent by other regional residents and businesses in several successive cycles of economic activity, thus creating so-called “multiplier” effects in the regional economy. After adjusting the spending figures, the \$97.1 million in regional spending constitutes the direct university-related spending that impacts the Fayetteville regional economy. This spending represents the direct effects of the university, which are subject to multiplier effects.

University operating expenditures include the payroll and purchases made by the university. Ninety-four percent (94%) of the university’s total payroll expenditures are paid to the university employees that reside in the Greater Fayetteville region. While 69% of the university’s total procurement spending of \$32.8 million is paid to suppliers in North Carolina (\$22.7 million), only \$12.6 million (39%) is paid to suppliers in the Greater Fayetteville region. Thus, a total of \$44.1 million of the university’s \$66.3 million in operating expenditures are spent in the Greater Fayetteville region (81%) and a total of 91% of the university’s operating expenditures are spent in North Carolina.

University capital expenditures consist of the construction and major renovation expenditures made by Fayetteville State University. The university had total capital and construction expenditures of \$10 million in fiscal 2006.

University Foundation/Other expenditures consist of spending by the university foundation and other units outside of the procurement system. FSU had University Foundation/Other expenditures of \$2.1 million. No data on the geographic distribution of this spending was available, thus it was distributed in the same manner as university procurement expenditures.

Student expenditures represent the living expenses of Fayetteville State University’s full-time graduate and undergraduate students. Part-time students are not included in this analysis since it is assumed that most of these students already live in the region and their spending, therefore, does not represent new spending in the region’s economy.² The university’s Office of Financial Aid provided information on the residency, estimated living expenses, and place of residence for undergraduate and graduate students. According to the data provided there are a total of 6,070 full time students in the area attending the university. Annual student living expenses were estimated at \$6,440 per student. Multiplying the number of students (6,070) by the estimated living expenses of \$6,040 yields an estimated \$39.1 million in total student living expenses.

Visitor expenditures represent the spending by out-of-region visitors attracted into the Greater Fayetteville area by Fayetteville State University. It is difficult to estimate the number of out-of-state visitors and their spending. Numerous formal and informal events occur on campus. The university attracted visitors for sporting events, conferences, symposia, and academic events, as well as, admission visits and student visitors. In fiscal 2006, visitor expenditures were estimated at \$3 million.

² Some part-time students do commute into the Fayetteville region from outside of the region, and the local spending of these students could be included in this analysis. Furthermore, many part-time students have been attracted into North Carolina by the programs available at Fayetteville State University. No data on this spending, however, was available. Thus, the overall impact of student expenditures is likely to be undercounted in this report.

1.1 The Economic Output Impact of Fayetteville State University

The expenditures associated with Fayetteville State University are circulated within the region's economy and become income for businesses and residents. This creates "spin-off" or "multiplier" effects as this money is spent and then re-spent in the regional economy. Thus, each dollar of new spending creates more than one dollar in economic impact, as that spending is earned and, in-turn, spent by others within the region.

Once the level of new expenditures in the economy is known, it can be entered into an economic model to determine the change in economic output (a measure similar to gross national product (GNP), which measures the level of economic activity in a region/state), employment, and earnings attributable to Fayetteville State University.³ The estimated economic output impact of the university is presented in Table 2. Direct impacts are the changes in economic activity directly attributable to the university. Indirect impacts are the "spin-off" or "multiplier" effects caused by the introduction of a new spending stream into the local economy.

Total university, affiliated institution, associated student and visitor expenditures of \$97.1 million are leveraged with an additional \$98.3 million in indirect spending for a combined total impact of \$195.4 million. University operation and foundation/other expenditures account for the half of the overall regional economic impact generated by the university. Student expenditures account for 36% of the university's impact, capital expenditures account for 11% and out-of-state visitor expenditures account for 3% of the impact.⁴

³ The Jacob France Institute used the RIMS II Input-Output model from the U.S. Bureau of Economic Analysis.

⁴ No multipliers for students or visitors exist in the RIMS II model. In order to estimate the economic impact of this spending, blended multipliers were derived for each category of spending based on average spending by major expenditure category by students (from the U.S. Department of Labor's Consumer Expenditure Survey) and by visitors.

1.2 The Employment and Earnings Impacts of Fayetteville State University

As demonstrated in Table 3, Fayetteville State University directly employs a total of 919 workers in the region, while the \$10 million in-region construction expenditures creates an estimated 92 construction related jobs. The total University operating, construction, student and visitor and affiliated institution spending supports an additional 1,505 jobs through indirect or spin-off employment, for a total of 2,516 jobs directly or indirectly supported by the university. As demonstrated in Table 4, there is a total of \$81.1 million in salaries and wages associated with these 2,516 jobs, which is comprised of \$36.7 million in direct salaries and wages and \$44.4 million in salaries and wages for the jobs indirectly created or supported by the university.

1.3 The Fiscal Impact of Fayetteville State University

Fayetteville State University also impacts the fiscal health of the region. The salaries and wages earned by the university’s employees and the jobs created and sustained through University spending are subject to taxes. Many of the purchases made by university employees, the persons directly or indirectly supported by the university as well as by students and visitors are also subject to sales tax. In order to estimate local fiscal impacts, total property tax, sales and services, and sales tax collections for the region were divided by the total personal income of the region to estimate an effective tax rate for the region. The effective tax rate was multiplied by the employee compensation impacts listed in Table 4 to derive the estimated fiscal impacts. To this was added the estimated taxes paid by students and visitors. The total regional property, sales and services, and sales tax receipts across all counties in the region resulting from university-related regional expenditures and their related economic impacts are an estimated \$3.0 million. It was outside of the scope of this analysis to conduct a full fiscal impact analysis. This analysis looked at only sales, sales and services, and property taxes, which are the major sources of local revenue in North Carolina counties. According to the U.S. Bureau of the Census, these taxes account for 95% of total local government revenue from own sources. These figures do not include the added tax benefits to the state and the region derived from the increased earnings of university graduates or the corporate income taxes paid by companies. Thus, these figures in Table 5 only represent a portion of the total fiscal impact of Fayetteville State University.

Table 5
Fiscal Impact of Fayetteville State University
On the Greater Fayetteville Region, FY 2006
(Millions of Dollars)

Item	Direct Impacts	Indirect Impacts	Total Impacts
Total Greater Fayetteville Region Local Government Revenues	1.9	1.1	3.0

Source: FSU and The Jacob France Institute

The fiscal impact of Fayetteville State University can also be analyzed in terms of the level of economic output leveraged by the state appropriations. Universities, unlike other state government activities, attract a substantial portion of their revenues from other sources. The university attracts significant other sources of revenues, such as, tuition, research grants, and private gifts. This leveraging of state appropriations, combined with the economic impacts discussed above, leads to a high return on state expenditures. Dividing the total economic output impacts of the university by the state’s appropriation provides an estimate of the economic return on the state’s investment in Fayetteville State University. This is also a conservative estimate since the economic impact of the university was only calculated for the Greater Fayetteville

Region. Using this figure, the university generates \$3.97 in regional economic activity for every \$1.00 in state appropriations.

Fayetteville State University

Fayetteville State University campus climate is always changing and this includes the campus infrastructure. Buildings are being renovated to support these changes. Renovations on the Collins Bldg. and Lilly Gymnasium are complete.

The infrastructure changes are ongoing in order to continue to improve the overall environment of Fayetteville State University.
