

SoTL Study Design Worksheet

Identify the Research Question(s)	
Design the study	
Collect the Data	What data will you collect? When will you collect them? Who will collect it? Why are you collecting this data?
Analyze the Data and Draw Conclusions	How will you analyze the data? If your data sets need to be coded, who will do it? If you require statistical analysis of your datasets, who will do it?
Report the Findings	Where do you plan to present your findings? Where do you plan to publish your findings?
