

# 23-24 FSU GRADUATING SENIOR SURVEY

## Section A: Academic Journey

656 ⓘ

Rate your overall satisfaction with aspects of your academic journey	Strongly Agree	Agree	Disagree	Strongly Disagree	Average
Courses in the major were offered when needed	46%	36%	14%	4%	3.24
Courses within the major were offered during days and times that were convenient	50%	39%	8%	3%	3.35
Faculty/Instructors helped you think about post-graduation educational options (e.g., graduate school, employment)	43%	36%	15%	6%	3.16
Faculty/instructors in your major were effective	50%	41%	7%	1%	3.40
Mentoring from faculty and instructors in the major	44%	41%	11%	5%	3.23
Professors were understanding of circumstances that impacted my academics	47%	42%	7%	3%	3.34
Professors/Instructors responded to my questions and concerns in a timely manner	47%	46%	5%	2%	3.38
Satisfaction with your chosen major	58%	35%	4%	2%	3.50
There was use of cutting-edge technology and software in my courses	39%	43%	14%	3%	3.19
You would recommend your major to other students pursuing similar academic and career interests	57%	35%	6%	3%	3.44

Professors were understanding of circumstances

Professors were understanding of circumstances that impacted your academics ⓘ

Other (Specify)

Dr. Allen listened when I told him about anxiety issues when taken timed test for statistics. He added more time for the test and I started performing better.

Yes, my professors were very accomodating last year when I had multiple deaths in the family.

There were a few who had no give whatsoever!

**Other (Specify)**

agree except for one time that I got into a car crash before my final and I asked for a makeup exam and the professor said no. I failed the class and retook it the next semester

Some were not all

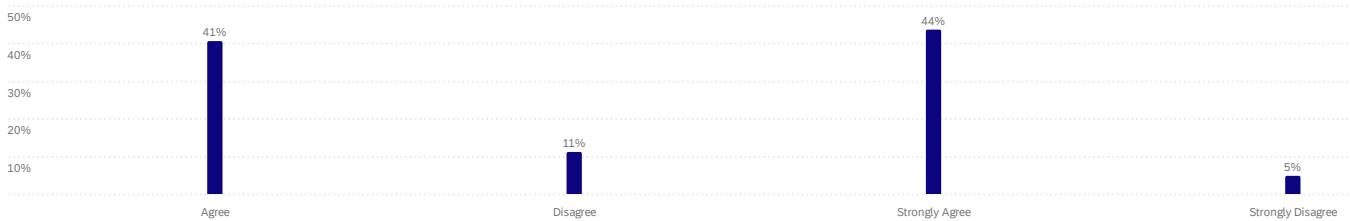

I felt like the professors were not understanding that I was an online student and had a full time job. I was treated as if I was a full time student only

Most were

All except Dr. Paul

Informed all professors during the semester of my due date that I would be giving birth. Went into labor had complications so I had to stay in the hospital a few days but managed to inform my professor of my absent and did not get any accommodations or extended due date for assignment.

**Mentoring from faculty and instructors in the major** 643

**Mentoring from faculty and instructors in the major** 14

**Other (Specify)**

I have never spoken with my mentor even though I reached out to her. I haven't seen her the entire time I have been attending school.

N/a

N/A

na

Some courses not all

n/a

I had more interactions with the English Department and mentorship from the Pre-Law Society than from the Political Science Department itself.

n/a

Is this a question?

Some instructors were very good, others not very good.

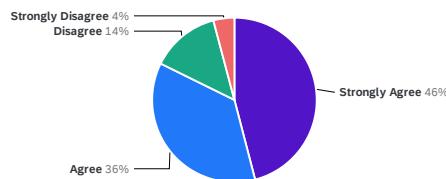

Not all

NA

My advisor knew nothing. I had to fight for transfer credits to be applied properly

NA

Courses in the major were offered when needed 655

Courses in the major were offered when needed 12

**Other (Specify)**

I had to rearrange my semester because of courses not being offered during the semester that was needed.

I wish that I was aware of when future courses would be available (ie. SP, SU, FA)

Some courses were not open for summer

Could hold corrections in the fall semester.

Community should be adjusted to be a summer course while peds and OB are incorporated in the semester giving us more weeks to learn the material. Peds and OB are some of the main struggle points testing based on communicated concerns from our cohort. I believe this would increase test scores overall.

Some course were not offered when needed and I had to find alternatives.

Required language courses are slim picking.

some major electives never offered

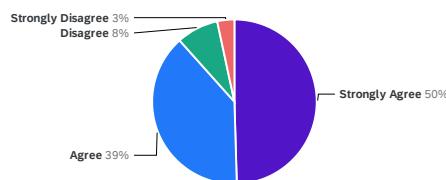

Had to wait for another semester because there is not enough digital instructors.

Many courses listed in course catalog were never available (advanced cost accounting, governmental accounting)

Until you get into your senior level courses.

I originally was a ISBA major then converted to Business Administration with a concentration in MIS and I was advised to take a series of course not knowing that the classes I needed was not offered the following semester. This would have put me graduated 2 semester behind my personal goal so I changed my major to General BA with minor in Finance which I'm currently in.

Courses within the major were offered during days and times that were convenient 654

Courses within the major were offered during days and times that were convenient 13

**Other (Specify)**

I wish there were more 8 week options

No choices within degree plan classes not offered

had assignments during spring break

online student

**Other (Specify)**

I was online only so there was for the most part classes were open when needed

Online Student

I think more online over in person classes may be more convenient for commuting and working students. There were a couple that I had a really hard time making happen

I was an online student

Majority of my political science classes were virtual and there were not in-person options convenient for student to attend throughout the week aside from Political Statistics.

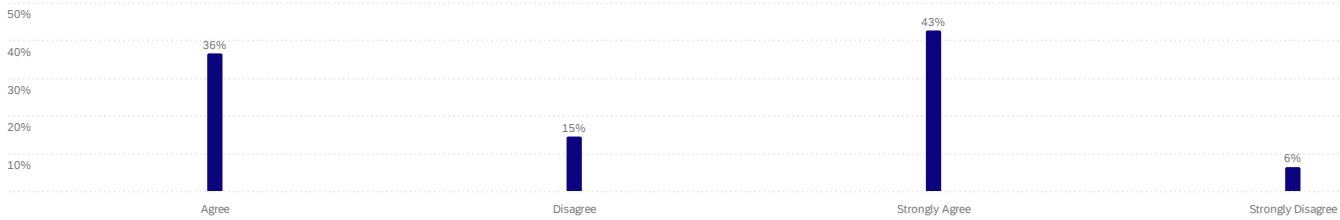

Most were

Some courses only had one option, often late in the day and in-person that was difficult to schedule around my commute-styled education

I highly suggest hiring more professors and spacing the times for classes out. It is draining to have class from 12-1:50, 2-3:15 and then 3:30-4:45.

Very selective is I say so due to limited Professors to teach certain courses

**Faculty helped you think about post-graduation ED. Options** 653

**Faculty/Instructors helped you think about post-graduation educational options (e.g., graduate school, employment)** 10

**Other (Specify)**

Only one did and that was Dr. Coyle

There were emails and announcements regarding jobs that were low paying or not suitable for adults with children (I.e moving, unpaid training).

Only one professor has ever had a conversation about future plans with me.

na

Some provided materials not all

I relied on the English Department and the Pre-Law Society for these options

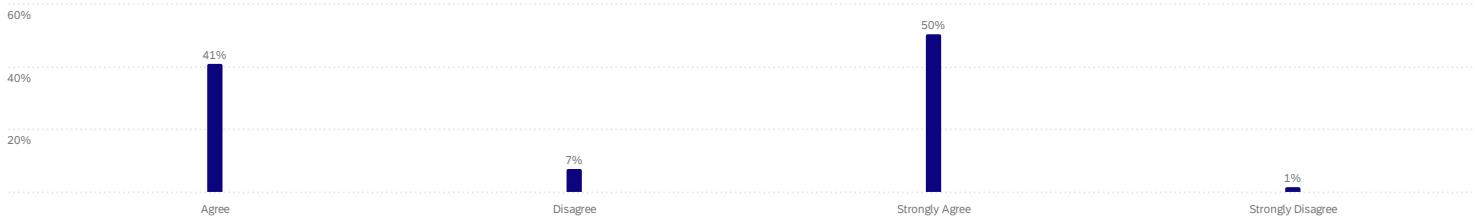

Not applicable

Not all

Only the mentors I had,

NA

Faculty/instructors in your major were effective

Faculty/instructors in your major were effective 10

Other (Specify)

There were a few professors that I could tell didn't want to be here and it showed in their quality of lecturing.

Dr.Subir Nadgas is extremely rude and doesn't talk loud enough. He should have a microphone in his classrooms.

online learning is a challenge at times but all the professors were wonderful

There was only one in particular that do not embody what it is to be a professional social worker

with the exception of one that lectured about her personal preferences rather than information from selected text that taught what we are to be tested on with our national exam

Some were great, some need improvement

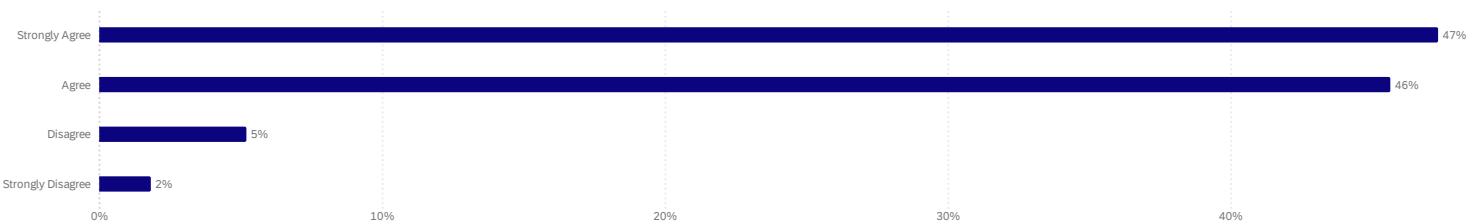

Some were

Not all

My advisor knew nothing. I had to fight for transfer credits to be applied properly

some were effective.

Professors/Instructors responded to my questions and concerns in a timely manner

Professors/Instructors responded to your questions and concerns in a timely manner 15

Other (Specify)

For a few professors I would have to contact them more than once and a couple times I had to contact the Dean to get a response from the professors.

Sometimes

I have had some professors that do not answer emails/questions and some that only answer rudely.

Everyone except Dr. Guevara

I had one professor that was very responsive. I had 2 that did not respond at all.

My sociology professors were amazing. This last semester of policy courses the professors have been awful.

Some were not all

#### Other (Specify)

Most did with the exception of my advisor DeLone

Most were very responsive there was only 2 that were not responsive

There was only one in particular that do not embody what it is to be a professional social worker

Not for some classes

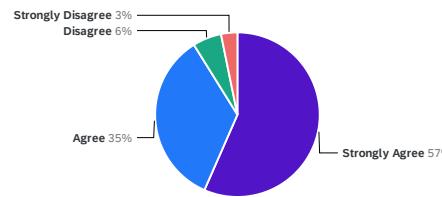

Instructors in the SON were great. The rest of the school, not so much.

Most did

All except Dr. Paul

Instructors often refer students to the syllabus when students have questions or don't understand the syllabus.

You would recommend your major 654

You would recommend your major to other students pursuing similar academic and career interests 3

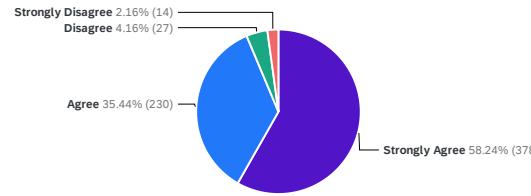

#### Other (Specify)

I would recommend because overall I did enjoy this program. However, the only time I did have problems was when it came to taking CRJC 450 with Dr. David Barlow. He is a great professor, but the way he speaks to people in that class is harsh and rude. Considering our main assignment for that class was essay broken into 4 parts, he would leave feedback on ours when we would turn it in. Instead of politely providing us with criticism, he was to harsh with his usage of words.

only for people who know how to preserver when things are incredibly stressful, tiring, and seemingly impossible to overcome.

Depends

Satisfaction with Major 649

Satisfaction with your chosen major 3

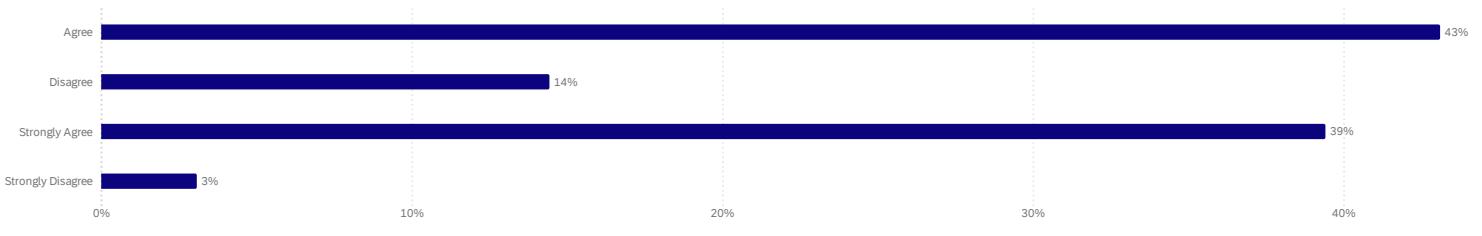

#### Other (Specify)

Unsure

I expected more from my major whether it had been internships and opportunities and in-class interactions with professors.

I was, the economy has changed.

There was use of cutting-edge technology and software in my courses 652

There was use of cutting-edge technology and software in my courses 10

**Other (Specify)**

I feel we could use an upgrade on our forensics instruments as many of them have been there since 2006

We did do a artificial intelligence meeting for a stats class but during the program there was no cutting edge technology that I was exposed to.

Most classes just used textbooks and old videos

N/A

The edge is quite dull.

Some

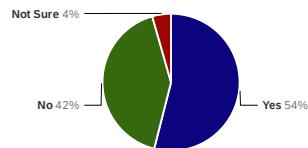

Docker, an industry standard, was never talked about in our courses.

I most enjoyed the biolgy virtual labsle

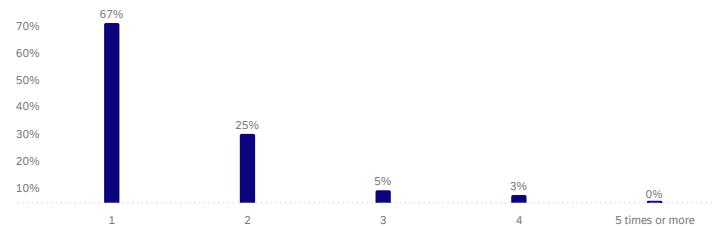

I am not sure about this question

limited to certain classrooms

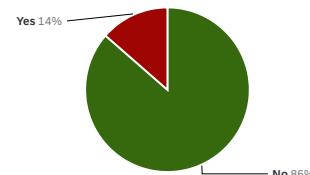

Did you participate in high impact practices as part of your course work? (undergraduate research, internships, study-abroad, study-away, service learning, capstone course/project, learning communities, creative arts and performances, and learning communities) 656

How many times did you change your major? 656

Is there a major that you preferred that is not currently at FSU? 656

Is there a major that you preferred that is not currently at FSU? 92

If you answered "Yes", please explain.

UX/UI design(user experience/user interface)

Astronomy

Occupational Safety and Health

Communication

Graduate Program for Political Science

Speech Language Pathology

Applied Behavioral Analysis Master's Degree

If you answered "Yes", please explain.

public health

Was originally going to major or minor in music therapy but it never arrived despite being told it was going in 2020.

Engineering

Kinesiology

Human Resources

Occupational therapy/ speech pathology

pre-med

N/A

Public health (masters)

Kinesiology

Pre Law

3D animation

Human Resources

MSN Family Nurse Practitioner program would be nice.

Major in Human Resources

International Relations and Diplomacy

Human Resources

Graduate degree for history. I know y'all offer some courses but did not see a way to sign up for these. I asked around and they said I had to receive permission.

2d and 2d animation, with advanced illustration. 2) The art department needs studio to produce movies, to show what the students can do, this can prepare them for job market in gaming, also animated movie making.

FNP

Nutrition isn't available at FSU.

Occupational Therapy

Pre-Dental Track or courses that are centered around dental students such as an internship course for pre-dental students.

DNP

Library science

Statistics major

N/A

N/A

Dance majors should be added to performing arts.

If you answered "Yes", please explain.

I would have preferred Clinical psychology track or behavioral analysis would have been great too. I also wish UNCFU had a master's degree for becoming a BCBA

Supply Chain Management

Forensic science

AI Intelligence

Russian language

BCBA masters program

Cybersecurity

Masters in Public Administration

Master in nurse practitioner

Well the program is available at FTCC, however, they do not offer any evening classes for it (Forensic Technology). This is the major I truly wanted to pursue.

Molecular Biology or Genetic and Genomics

aplied behavior analyst, masters

Agriculture

American Sign Language Interpreting

Social forensics

Women studies

Pre Physical therapy

No

Theology

An online option for English graduate studies would be nice in the future.

PMHDNP

International development and planning

I was interested in a more foreign language degree options, but FSU only offers Spanish and Chinese.

Coming into Fayetteville State as a Freshman in 2021, Public Health was not offered which is why I chose Healthcare Administration. But, since then, Public Health is now offered at FSU.

Computer Engineering

CRNA

real estate program

French

Speech

If you answered "Yes", please explain.

Game Art Design

I wanted a concentration in Marketing and a lot of classes were not offered in the Fall Semester to complete my studies in time for graduation.

Pharmacy College: Pharm D program

More healthcare programs

Human development

Human Resource Management

I was an exercise science major at my prior university and had to change it to interdisciplinary studies since there were no similar options here.

48

If there are additional campus and academic support services you wish to add, please explain.

Help add more resources for students to find a career due to the fact that most employers want a candidate that have more than a college degree but also have experience. Help prepare graduating seniors to overcome that challenge.

Disability Services do not follow ada laws.

N/a

N/A

Trips to certain businesses and universities.

If there are additional campus and academic support services you wish to add, please explain.

N/A

This survey is a prime example - With so many questions after about half, you have to scroll back up to see what the options are. And then back down to answer - for each. Not very user friendly at all. IT needs help.

Can we get the S4 back? More tutors for stem course like biochemistry

N/a

n/a

STEM TUTORS ON CAMPUS, donation box for seniors to donate campus items that can be passed on to incoming freshman

na

N/A

N/a

Have better support with advisors to ensure student is happy with your major / on the right track

Soccer

No

n/a

Tutors for biochemistry or teacher aids in biochemistry. Especially DrNadgas. He needs help for his class to run smoother. At least give him a microphone since he speaks very quietly.

No

The Professors and Advisors I encountered were top tier, high achieving, goal oriented people. A lot of them were professional, great coaches, mentors, and leaders. These professionals reek of high level experience and wisdom. Very satisfied with my time at FSU.

More teachers and support within the Biological and Forensic Department. Forensic science majors need teachers based in this field who can teach based on what is needed in this field and with research and internship opportunities available as well.

N/a

N/A

N/A

The advisor rating does not reflect my minor advisor, that advisor has always been great and professional.

More tutors

My advisor was Shawana Feemster. To say she was unprofessional in her emails and communications is an understatement. She is the sole reason I would not attend a graduate program for fear she would remain my advisor. I would definitely encourage her to move positions or undergo professional development.

None.

N/A

A center that helps with science related courses

N/A

N/A

Trio Student Support Services Ms. Chalon Robinson Advisor - Very Satisfied

If there are additional campus and academic support services you wish to add, please explain.

The only reason dissatisfied with advisors is from Mr Abdulk Kaliq who retired this semester - he was very difficult to work with.

I wish their were advisors or a senior liaison for students navigating graduation and ensuring they completed everything to qualify. Whether it be apart of senior seminar and students are required to check in with liaison to ensure they are on track and if they must stay longer they understand why.

not at this time

N/A

I suggest adding more in person stem tutors for classes that are more challenging such as organic chemistry and biochemistry

I moved to an area where the WIFI was unreliable and had a hard time completing assignments last summer. I tried again during the Fall and decided to drop the class. If FSU had hotspots available for students to check out from the Library, this would be awesome.

I would like to see more math tutors that are not necessarily "foreign" I don't mean this to sound negative but just more relatable

NA

TRIO

N/A

I was a member of Trio, and my only suggestion for trio would be to make the programs and activities more accessible to online students. I was unable to participate in many of the events offered by trio, because they were only offered in person.

N/A

No

Are there services that you feel are needed that we currently do not offer? 618

Are there services that you feel are needed that we currently do not offer? 39

If you answered "Yes", please specify.

Childcare

online counseling for distance students

It services and canvas are lagging severely compared to other universities. Professors need training in all capacities as they are not adequate to keep up with other universities. It is sad.

Better gym for regular students

Tutoring for accounting and finance

If you answered "Yes", please specify.

Mental Health or Wellness, or in better words "Behavioral Health" specifically available for athletics.

A large health and fitness center

Muslim Prayer Room

Internships for forensics science, S4 and tutoring for biochemistry and other STEAM/STEM.

Dining service could be of better quality regarding food and hours. No more light lunch.  
SGA meetings scheduled a better times with an agenda.  
Better university communication measure via radio, campus tv anounces, or digital board in the student center.

parking .

FAST Bus services

Abundance of food services (more food options)

Master's in interdisciplinary studies

We need more resources geared toward LGBTQ students.

An accelerated Master Degree Program. All 8-week courses. Many other colleges provide this.

Biochemistry /chemistry tutors in person

Remote Student Services

N/A

Mature activities for Mature adults

There needs to be a better program for post graduation and internships. There isn't a lot of good communication or good resources for students to have after graduation which leaves a lot of students very lost.  
And with internships there needs to be away for a student to actually get into the field that they're trying to go to especially when there is a lot of experience needed upfront a lot of degrees offered here need experience upfront arrest, they will not get hired but with the poor internship options, they don't know where to look or where to go.

Gas vouchers for non traditional students or bus pass

A sort of shuttle or van service for students without transportation.

None

Staff.

There should be an online section that understands that they are not educating a traditional student

Better safety for the students and faculty.

More options for decompressing and mental resets on campus.

Microsoft word and PowerPoint certification, make sure transfer student isn't paying for classes repeatedly and better communication with students.

Graduation with honors for transfer students

Scholarships for Graduate Students

N/A

More online student support

If you answered "Yes", please specify.

More help for online students. So they can be involved in college life.

A shuttle, since students residing in UPA can no longer drive their cars

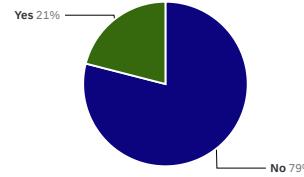

More High School Outreach is needed outside the Fayetteville Area. Outreach is needed in low income area within Johnston and Harnett County. I truly live by the motto, "If they don't know, they won't go and minds cannot grow."

I think more classes should be offered in the summer for birth to kindergarten area and other times of the year. I don't think you should have to wait till spring or fall to take certain classes. It was just a waste of time having to wait for certain classes to be offered..

More on campus jobs and housing

SI for all STATISTICAL and accounting classes

Are there critical service(s) that the university provides that need improvement? 619

Are there critical service(s) that the university provides that need improvement? 118

If you answered "Yes", please specify.

Financial aid

There needs to be better support for out of state students. I felt there were no convenient hours for me to call the university when it wasn't closed. This caused stress and frustration on my part when trying to speak to someone regarding classes or other issues.

yes

Career services could be improved on reviewing resumes for science students. I felt that they were a bit lost in how to help me prepare my resume and I found myself having to outsource and ask many other people

advisors, and counseling, post grad options

Advising for on campus fees if you are an online student that hasn't completed core classes.

Disability services do not follow ada laws. Other universities are far superior.

Better gym for regular students

Offer tutoring for accounting 211 and 212

Sufficient available classes to satisfy course requirements.

Advisors knowledge and guidance. I am a distant learner and was not instructed to chose the "online" major option when declaring my major. This cost me money. In addition, the advisors overlooked my graduation status can made me feel unimportant.

Career Services and to be honest, all of them need work.

They need to have individuals that are not unbiased as department chairs or hire from the outside. There should be a union for students against professors that haze. There should be a time limit on how long an individual holds a position because the employees are mentally drained to where it affects their judgment. They should do mental assessments and character background checks on the professors and individuals hired in the cashier's office, registrar's office and financial aid. They should also hire outside agencies to perform frequent audits.

Muslim Prayer Room

Professors taking accountability for their mistakes and trying to actually help the students improve their grades instead of not caring.

If you answered "Yes", please specify.

I wished the staff did a better job of providing support via email or over the phone. It seems like they will say the first thing that comes to mind that gets you to go away instead of providing help. You have to be persistent before you get remote support.

Forensic sciences needs more professors geared for forensic science. More updated resources and tutors.

Dining service could be of better quality regarding food and hours. No more light lunch.

SGA meetings scheduled a better times with an agenda.

Better university communication measure via radio, campus tv anounces, or digital board in the student center.

More communication for online graduate dates and the process of applying

Ensuring transfer student do not repeat same class they took in other school.

Adding more resources for nursing students

Advisors not signing me up for the right classes

Customer service in the bookstore was horrible. I was trying to get my books shipped. The process changed and I was not notified. When I called the lady was in a hurry and telling what I don't need to do and not clearly explaining the instructions. It was a terrible experience. Overall, I found FSU to be very disorganized and substandard to our counterparts. Please do better.

Housing

parking , stem department

My advisor, Sandra Elliot did not help with anything nor did she communicate with me about anything. Emails went ignored, phone calls were ignored. It took CCing Umerah or Dr. Hudson just to get some type of response that was often "I'll look into it and get back to you" with no additional follow ups. She was genuinely horrible and I missed out on several opportunities due to her lack of communication. For registration she never once offered help. She would just send my my degree plan and code. None of my questions were answered. She truly made my last 2 years here almost unbearable.

Every service on campus. Especially Residence Life in regards to customer service. Administration and staff members who are not of student status should be trained per semester. Due to the extremely poor customer service.

Parking

The Professor(s) in the Social Work program needs help

better advisors

Online students and graduates should have priority placement in online classes. Freshman and in person students should not be able to fill up online classes, this causes online students to not get the classes they need each semester to graduate on time.

Advising

Lactation rooms/pods for breast feeding mothers. Rooms should have a comfortable place to sit and a sink. There are not enough across campus. 1-2 more in various locations would help support breast feeding mothers.

Advisors

more Organic Chemistry Tutors

Place microphones in large lecture rooms

Advisors should be more available and knowledgeable about the students major/minor

parking

some professors should be reevaluated, some are rude and do not actually teach but tell students to just read the textbook with no effort

Advisory

The parking on campus is inconvenient for students

Proper living quarters for students that does not cause long-term health issues i.e. Mold

If you answered "Yes", please specify.

N/A

Financial Aid

Academic advisement

N/A

Overall my time at FSU was fantastic. The one thing I suggest improvement on is advising. I can't speak for anyone else but my advisor seriously lacked in communication and follow through

Helping seniors to better navigate out processes to include graduation fees being included in tuition

Better advisors who are understanding and can communicate with students professionally.

Security and Financial Aid need to be improved. The security office has had continuing problems allowing access to buildings and after-hours access to classrooms. There has been issues with the security office not communicating between themselves with student lists. This has been a major detriment to students' ability to complete work on time. The financial aid office has had so many problems processing everything on time as well as communicating delays. This has resulted in financial burdens to students and has added extra stress to students.

More involvement for mature adults.

Response time from advisors could be improved.

Parking shouldn't be a separate bill.

The advisor program needs severe help if all interact as Shawna Feemster does. Furthermore, the policy course instructors are awful at communicating with students and decision making.

Clarity on Music Catalog courses: Better course availability offered

Academic advisor

Financial aid response time

Cafeteria hours

Mentor availability

Parking availability and security

Setting up appointments to meet with advisors online needs a little work. I tried to set up my appointment to get my alternate pin for this past semester and it sent me to someone who ultimately told me I could not get my alternate pin from them and I would need to set up an appointment with my advisor under a different option. I think clarifying this would be best as it caused an issue.

I think staff should also be informed of information the students need to know so they can help effectively. Also to share internship information ahead of time, not one day before applications are due.

All of the services critical, or not at this school, need to be reworked. The people don't have the knowledge or the time. There aren't any resources for all the different services. They're not probably advertised to students, so nobody actually knows what's going on. There's poor communication between services, so nobody is on the same page. The services are completely disorganized in every critical aspect. They're not timeline shape or form. Or they're completely understaffed.

The registration process should be improved. Many times there are not many sections to choose from which leaves students with difficult decisions to make when trying to create a schedule that will work for their lifestyle.

Transfer students

advisors

One Stop Advisors aren't available when they're mostly needed.

Better internet services

Provide more school tutors for STEM majors

extend the hours of the cafeteria

None

Career Services and the Bookstore

Advisement. There was so much information and opportunities that were not able to be taken advantage of because advisors do not tell you everything nor even encourage you to go to the career center starting as a freshman. As a 1st generation university college student, more direction and assistance to make the most of your time in college would have been appreciated.

If you answered "Yes", please specify.

Staff that are nice and try to help you. It's hard to get someone on the phone if you are an online student. Financial aid and registration office is never open. Very inconvenient all the time.

Financial Aid, Advisors, Student Affairs

More parking and I have tried to get a meeting with the Chancellor since January and no one has gotten back to me.

Advisors

IT on the weekend

Better safety for students. It is sad to hear how often students are at risk for danger. Even one being murdered. It is sad. If there were better ways to protect them like more security guards patrolling or even a gate system for campus and university apartments where only parking passes allowed cars in I feel like it would better protect students. Safety should be top priority. Money should be invested into that before all these other projects. I don't ever feel safe on campus and that's why I chose to be a commuter. There was even a mugging once outside my boyfriend's dormitory freshman year. Safety needs to be number one instead of being on the back burner.

Links on the website often don't work. Advisors have been fantastic, but it's very hard to get an appointment when something unforeseen happens, and there is no recourse. When my advisor was unavailable and one-stop couldn't help, I made first-available appointment and the appointment was immediately cancelled because it wasn't my regular advisor.

The Department of Biological Sciences deserves better funding for students who want to be lab researchers.

Financial Aid Office

I think there should be more help in the internship department of BCBE that will assist in assigning graduating seniors internships so they will not have to wait.

Consistent academic advisor across a student's enrollment. Never had the same advisor for more than a year.

Disability acceptance

Counseling, housing, etc

Navigating one stop and banner is sometimes difficult and hard to understand the online plan that tells you what classes you still need.

Critical services such as student health services, counseling and personal development and the housing department need more attention by the school. These programs cannot be successful without the support of the institution and this also applies to the advising center as well. We need advisors that understand how core classes work and how to cater a schedule to a student's interests and ensuring their minimum requirements are met and they are not wasting money taking classes they do not need.

More guidance and assistance for online students in the advising department.

Financial Aid, Housing

The academic advisors need to be willing to meet with students. We are four years removed from Covid. There's no reason to refuse to meet face-to-face with students to assist with academic planning.

registrar office

MBA office is non responsive. I've been reaching out for weeks.

Printer in the library, communication between advisor and scholarship.

The quality of their professors in the social work program.

housing

Graduation with honors for transfer students

Physical Fitness facilities

There needs to be better food options

N/A

Provide better help when students call

If you answered "Yes", please specify.

I went to the "graduation fair" at the student Center in March and no one gave me any information related to submitting an application to graduate. I was provided graduation attire but no additional information. A handout or some type of checklist could be given to seniors to ensure all items are addressed in a timely manner. As an online student, I also found driving on campus to simply pick up books an exhausting process with having to go to the police station, walk over to the cashier, etc etc, or risk getting a ticket. After my first ticket, I was informed online students are to purchase a yearly parking pass as well.

Better involvement from staff

Very little support is given to Online students. I very rarely was able to get in touch with staff or faculty. Often times, my emails or calls would not be returned.

Less excessive email communication from FSU News and more focus on important information like graduation, advising, financial aid, etc.

Health services need to provide more shots available.

Website needs to be updated; several critical pages were not available or not found at times I needed them

Tutoring services

Not all events are easy for online students to attend that are on campus. I see the effort to include online students, but some session are during work hours for adults and multiple session would be great. Open House was great!

My advisor knew nothing. I had to fight for transfer credits to be applied properly

The advisors

Please improve the critical services of the professors/advisors. Students should be able to confide and communicate with professors without feeling neglected or confused. Perhaps there could be a better system set in place to be able to communicate with faculty better or to provide more helpful techniques for tutoring.

Better communication when it comes to important information for students. I missed my graduation date due to some misinformation and miscommunication.

The campus security office

Some professors need to be a little more patient in the birth to kindergarten department. Some of them have very short answers and very short attitudes. That is why I changed my major.

Library Staff was loud often, made it hard to concentrate during studies

Professor communications

advisors need to be more aware and helping when going through classes. my advisor did not help and it caused me to miss out on a class that would have allowed me to graduate a semester earlier.

Better knowledge in certain departments i.e. financial aid. Also, better service when speaking on the phone.

IT needs to listen to customers more

Housing, which I see is making an improvement as I go. The financial aid office and provided accessible scholarships

I would recommend that campus safety would be consistent when it comes to guarding the entrance. I also think the financial aid department should be more aware of the allocation of funds.

## Section D: Library Services

## Library Services 543

Library Services	Very Satisfied	Satisfied	Dissatisfied	Very Dissatisfied	Average
Access to online library resources (i.e. databases, ebooks, research guides)	52%	44%	3%	1%	3.48

## Satisfaction & Preparedness

478

Current Employment or Graduate Educational Situation Satisfaction

	Very Satisfied	Satisfied	Somewhat Dissatisfied	Dissatisfied	Very Dissatisfied	Average
How satisfied are you with your current employment or graduate educational situation?	37%	42%	15%	4%	2%	4.07

554

Career Preparedness

	Strongly Agree	Agree	Disagree	Strongly Disagree	No Opinion	Average
Did your college education at FSU adequately prepare you for your current or future career?	34%	46%	7%	3%	10%	3.92

230

What skills or experiences from college have been most valuable in your current role or educational program?

Time management

I enjoyed learning about other cultures and how to navigate speaking with people from other cultures. I also enjoyed doing peer coaching.

Time management

Prepared me to remain open minded within the real world.

Having a degree is going to allow me to be eligible for promotions within my company to experience career growth and become more successful.

Communication, technology, team-work, time management and organizational skills.

Interpersonal skills, exposure to forensic science techniques and applications regarding actual lab work. I'm very grateful for the professors that took time in informing and mentoring me on my next steps

Always network

Teamwork

People interactions and the ability to advocate for oneself

Analysis

sales, management, business operations

All courses related to the School of Nursing with an emphasis on Capstone/Clinical

I was ULA for two semesters which prepared me for working with others and instructing them

Not much. Learn that you get what you pay for.

Foundation of social work and sociology

The hands project with companies in business classes

**What skills or experiences from college have been most valuable in your current role or educational program?**

intermediate accounting classes done in person

Public Speaking, Event and Facility Management/Planning, Group Projects

Time Management

N/A

Everything I have learned at FSU I plan on put into place moving forward.

Being able to learn more about my current job field

Psychology courses provided a foundational understanding of human behavior, cognition, and emotions. Understanding research methods and statistical analysis allows you to evaluate research findings and apply evidence-based practices critically. Courses in child development provide insight into the stages of development and typical milestones for children. Courses that address cultural diversity and courses that worked in groups helped develop teamwork skills, which are essential for collaborating with others.

Professional Business Development

Programs used such as PowerPoint sway and Microsoft word

My most valuable experiences from college have been being a student in Dr. Lodhi's serology and capstone class. His classes are quite rigorous but has helped me in my pursuit of graduate school.

Critical Thinking Skills

Behavioral skills , self management

n/a

Critical Thinking Skills, Art Skills, Be prepared

Multiple learning perspectives

Networking and research

Writing and professional skills.

computer skills , financial skills

Communication

Making relationships

Conflict

Seeking Knowledge

My problem solving skills

Networking and hands on experience in courses

Create network

Networking and asking questions

I understand what to expect from grad school due to many professors taking class time out to explain how it works.

The instructors from the History Department were excellent. Dr. Pash and Dr. Brooks made the material interesting and relevant. Most valuable has been the ability to see different perspectives and understand that the events of today are historically based.

**What skills or experiences from college have been most valuable in your current role or educational program?**

Skills in the laboratory, such as pipetting.

Leadership

Communications

English, history and business classes

Public speaking and networking

Real life application of skills

Learning how to write case studies.

**What skills or experiences from college have been most valuable in your current role or educational program?**

Real world scenarios

McNair, URISE

time management

Methods and Research, Writing in Psychology, Math.

Making Connections

N/A

exposure to the field

Simply put pedagogy skills.

Clinicals

Research

Reading and writing are very important for planning and becoming informed about topics that you may encounter while working at different places. It is important to understand these topics with research and analysis.

reading

Networking with different types of people

networking

Networking

Undergraduate Research

networking skill

The ability to work with children.

My interpersonal skills have strengthened. I am more of an active listener and I am able to quickly assess a situation and devise a solution.

Mental health awareness skills and learning human behavior.

Communication skills

The proctored exams forced me to learn the material, which has greatly aided me in my career growth as an accountant.

Learning how to be on time

The extra learning has been helpful with the classroom experience

The McNair program and research with my mentors have prepared me to enter into graduate school.

Retired Lieutenant from USSS

business and management courses, and accounting courses.

Public speaking

Time management and career knowledge/skills.

**What skills or experiences from college have been most valuable in your current role or educational program?**

Participating in hands-on learning experiences through the Career Center such as Career Fairs and related events like Dress To Impress and FedEx Career Insights and BCBE curriculum such as Business Communications and competitions like the Undergraduate Project Showcase gave me confidence to get through the steps of the real-world process.

Critical thinking

The path of disease for being a nurse

Time management, planning accordingly

Communication

Course topics were current and relevant to the firefighting industry.

Understanding the criminal justice system more than prior to starting my job

Research skills acquired have been useful in my graduate program, as well as writing skills.

Becoming flexible, Being creative, and Helping others while helping myself grow.

Writing research papers and locating primary source documents.

In my case, the breadth of knowledge gained during my college years has been invaluable. From critical thinking and problem-solving skills developed through various coursework to communication and collaboration skills honed through group projects and presentations, college laid the foundation for my current role. Additionally, my experiences in research projects and internships provided hands-on experience and practical skills that I use regularly. Time management and the ability to adapt to new challenges were also crucial skills cultivated during my college years that continue to serve me well.

I have a degree in Information System Management.

Networking Experience

Definitely the capstone project with Dr. Blount

Learning about psychology, applying what I have learned, learning critical thinking skills, and strengthening my writing through assignments

Nothing

The only thing I really could add is further independence. A lot of my major consisted working on my own.

Many learning how to network and make new connections.

reading and writing

Management

What skills or experiences from college have been most valuable in your current role or educational program?

Public speaking.

promotional opportunities

Not much only my credits because FSU didn't have the best majors or resources to prepare me for the field of Physical Therapy. My family, work ethic and external resources prepared me the most

Learning how to be a leader, be confident with my decisions, while being a minority.

Laboratory Skills

How to be disciplined and organized

My knowledge of the criminal justice system

How to properly write better essays for recommendations letters.

Persevering

Learning SQL and Microsoft Excel

As a 1st generation college student, I did not know nor was I advised on how to or what resources I should have been utilizing until my senior year. The most valuable experiences and skills came from networking with other students that took advantage of opportunities I did not know existed.

All of them

Career services and Mentoring

Leadership and Accountability

Broadening my view of literature, others, and learning.

Communication

Research

I have learned so much in my field that am ready to apply what I learned in my Daycare.

Working in a lab and learning the different techniques.

Critical thinking skills, Time management, Intelligence processing

effective teaching strategies  
professional development

clinical skills

Working in education.

Technology skills that I gained were of immediate benefit. Planning and management courses have allowed me to communicate and perform more effectively, as well.

Writing

Computer Programming

Hands on work

Dr. Washington, Dr. Kaseem, Dr. Chao, Dr. Gibson, Dr. Zhu and Dr. Yuan are people I give great thanks to for helping me and giving that push to return to school as a readmit and go forth with my career in biology. If it wasn't for professors like them, I may not have made it to this point. Hats off to those professors.

**What skills or experiences from college have been most valuable in your current role or educational program?**

Time management, multi tasking, peer support

How to critically think about assessment data, analyze it, and utilize it to make informed decisions.

My time spent in the psychology courses associated with my degree has provided me with invaluable skills such as time management, critical thinking, and problem solving.

Networking and mentorship from professors.

Leadership and accountability

Marketing

Direct discussions and time with my professors, student teaching/clinical experience

The knowledge in Biology, Chemistry and Laboratory skills

Time management

Learning more about the specifics in psychology field

The hands on experience I got through my internship, student teaching, and Intelligent Systems Laboratories

Becoming an entrepreneur

the academic opportunities

Traveling and professional setting training from career services and the different organizations on campus gave me the space to learn how to professionally conduct myself in new spaces but also placed me in rooms I had never been in before.

classes that helped put together my resume, prepare us for career opportunities / the work force, and showing me another type of college culture.

Clinicals

Soft skills such as leadership, networking, and communication.

Networking

Coding, understanding of the area of my major

How to use the business courses in my current role, business communication, business writing, etc.

Learning different techniques to teach children

All of it.

Communication, management, strategy planning, and listening skills

Having the proper education for health psychology

Accounting and Software

Time Management

Leadership skills

Knowledgeable and experienced professors.

Patience

**What skills or experiences from college have been most valuable in your current role or educational program?**

Critical Thinking

Research Skills, Public Speaking

Through student teaching, I got to do a lot of hands-on learning in how to teach and the in's and out's on the systems in place, work needed to be done, best strategies and more.

The career fairs, the advisors , professional development opportunities

The ability to build relationships that are professional

Analytical skills gained through coursework and collaborative problem-solving experiences have been most valuable.

Strategic management was useful in learning business from various angles

Resume Building, research skills, communication skills, and Geospatial skills.

Learning to work independently, time management

Research and data gathering skills for proper preparation of presentations to stakeholders of budget.

growing in a leadership mentality and evidence based research nursing practice

Time management and professionalism

The adobe skill and printmaking.

The Laws of business which can be used in society outside the realm of business

The mentors I have developed as well as lifelong friends has been a blessing. The opportunities I have received due to me being involved has been amazing. I am forever grateful.

Educational Studies and Leadership, Senior Capstone Experience, and Biological Sciences and Animal Development classes were the most beneficial to my future plans

As a BSW (Bachelor of Social Work) student, I gained a range of valuable skills and experiences that are highly relevant to my educational program. Throughout my studies, I've developed the ability to empathize with others and practice active listening, crucial skills for understanding and addressing the needs of individuals and communities. I've learned to really appreciate and respect diverse perspectives, cultures, and identities, enabling me to work effectively with individuals from various backgrounds. Also, recognizing the challenges of social work, my education may have emphasized the importance of self-care practices and resilience-building strategies to sustain my well-being and effectiveness.

Time management

Strategic management projects.

Learning the difference approaches to classroom management.

As an older adult just wanting to earn the degree before I retire I learned a lot in the entrepreneurship area that I didn't know. It may come in very handy if I decide to do a part-time business.

Any course related to biology or biological science that relates to all organisms. I also will take to value some forensic courses and research opportunities.

Great

Patience

Hands on Training

Learning starter business tips

Time management and teamwork

In many ways I have been preparing for better and through my job and FSU, these skills have helped me: Effective communication, proficient writing, critical thinking, skills along with more valuable skills I have accomplished throughout my experiences at FSU as an online student.

What skills or experiences from college have been most valuable in your current role or educational program?

The career fair events

Research Laboratory techniques

My senior capstone class was very impactful in terms of leadership training.

My job assisted me with the courses here, as they are in the criminal justice field.

None

Management Skills

elevated my soft skills, ability to problem solve and think quick while providing sound solutions to mitigate risks. Trusting the process and fully committing to learning the material and utilizing my resources.

Crafting communication skills through the interactions with peers and staff on campus.

Skills: communication, leadership, empathy

Deadlines

Collaborations and developing in social skills

People skills

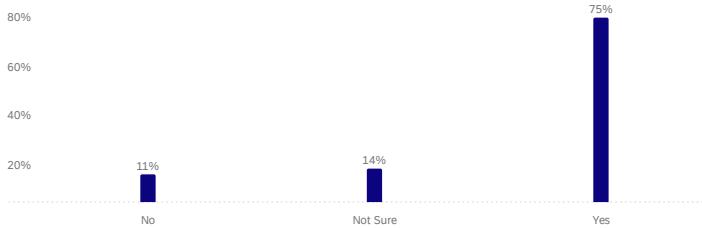

Being convenient while working two full time jobs and being a mother and being able to do online classes.

Time management

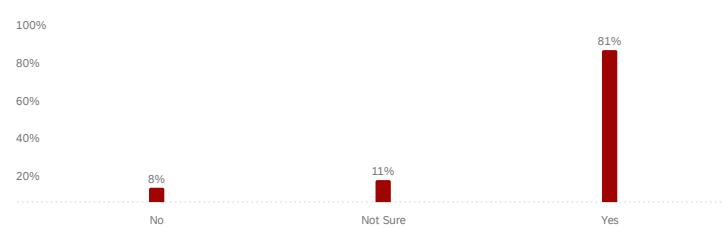

Social networking

## Section H: Conclusion

If you could start over again, would you still choose to attend this institution? 596

Would you recommend this institution to a friend considering college? 592

Listed below are various reasons why it might have taken you longer to graduate. (click all that apply)

Count

Percentage

Financial reasons	51	11%
I am graduating with more than one major	12	3%
I changed majors	52	11%
I could not get the courses I needed	42	9%
I lost credits when I transferred to FSU	49	10%
I took a semester or more off for personal (non-financial) reasons (e.g., medical, family, etc.)	72	15%
I wanted to/was advised to take a lighter course load	32	7%

Reason	Count	Percentage
I went part-time for personal (non-financial) reasons (e.g., medical, family, etc.)	32	7%
My participation in a co-op, internship, practicum, student teaching, etc.	3	1%
Other reasons	90	19%
The number of hours I spent working for pay	41	9%

Listed below are various reasons why it might have taken you longer to graduate. (click all that apply) [74](#)

If you chose "Other reasons" please explain.

Military

Life happened!!

I failed really bad in fall 2021 that set me back a bit, and I was only taking 4 classes a semester.

I was not advised to take more classes more than 12 credit hours and I was also advised incorrectly on the amount of classes I had remaining prior to needing to graduate.

Spouse work obligations caused me to move for a year

Failed math

had a full time job

Financial and working full time

I took two classes in another major before switching and I did not use the resources that were offered; causing me to take Statistics for Psychology three times. I was about to give up, but I am glad I did not.

n/a I am graduating on time

Graduating early

ALL OF THE ABOVE

Had kids

I am graduating on time

Not able to select multiple options

I was pregnant

Nervous

failing a course

N/A

GPA 49 YEARS AGO

Not Applicable, I'm graduating on time

I could not get the courses I needed, and I lost credits when I came, and I switched majors.

Transfer

I took more than required general education credits per semester to finish my 4 year degree in 3 years. It did not take me longer.

I understand that I had to complete a certain amount of credits in order to graduate. However, I believe that some of the classes were irrelevant for my degree.

If you chose "Other reasons" please explain.

College is expensive and time consuming. Ask your family to help you finish college. Sometimes college can be a lot if you have other stuff to focus on.

Took a course that I did not need and had to take additional courses that I knew not of until a few weeks ago for me to graduate. Also, misadvised by the Advisor of my program.

Covid

Working full time supporting my family.

Multiple issues in multiple semesters.

N/A

Transfer to NCSU from UNCFNU through 3+2 Program

I started school when I was Active Duty in the Army.

None I had an A.A.S prior to attending FSU. I started my program January 2023 and am finishing July 2024. It did not take me longer to graduate, I am on track.

taking a minor

Registration glitches and class time issues

My academic advisement lacked continuity and was inaccessible/nonresponsive at times, specifically Chad Pitts.

Personal reasons

Added a minor

So the survey does not allow you to click more than one, (1,8,9,10,11). I also was the fulltime stay at home parent with a baby when I started while my spouse was working 60-80 hours a week just depending. I have an elderly in-law we also help with.

COVID-19 restrictions forced me to stay at home.

None

I was a procrastinator

Covid

I'm an active duty service member

Transfer student who didn't do the best I could have

I am graduating a semester early

Active Duty Soldier

My advisor died and it took forever for me to find an advisor who cared and did a good job.

I'm graduating on time

I couldn't select multiple: Wanted a lighter course load due to working full time and caring for family members.

I am graduating on time

Undecided with going back school

Starting off I didn't have an advisor so I ended up taking classes that I didn't need, along with failing others because of the work load

If you chose "Other reasons" please explain.

personal reasons

I changed schools twice before I came to FSU. and i took time off because I got frustrated and was having a hard time

Financial Reasons

I'm graduating right on schedule.

It didn't take me long I completed my degree program in 1 year. I took a heavy course load.

Make up for time lost during COVID

The courses needed to graduate in the educational field made it take 5 years of total college schooling instead of 4.

None

Conceived in 2020, hard to find a balance working fulltime while doing school online full time while raising a child

I failed a couple of classes when my mother passed away

Working at the time, Financial reasons

Graduated on time

A teacher is being nitpicky and grading my assignments very poorly. I know I'm doing good work but keep getting lower grades.

I had a medical condition.

Covid-19 forced me to find an online degree due to being home with my son since he was out of school. I had to change my major from social work to business which caused me to fall behind because I needed more classes.

I could not get courses needed, I changed majors, I took a semester or more off for personal reasons. The number of hours I spent working for pay (Would not let me select more than one option)

I was a teen parent

I would say due to registration with courses, it caused me to have to take a summer course in the final required course for my major.

I had to retake a math class.

I graduated on time. This section does not apply to me as this was my second degree at FSU.
