**Notes**

UNIV 101-UNIV 102 required for all first-time students; UNIV 110 required for transfer students with fewer than 30 transfer credits. Students do not earn credit if requirement is waived. UNIV 111 may be required based on academic performance

Not required for students with 60+ transfer credits. Students do not earn credit if requirement is waived

MATH 121 may be required based on profile scores. Some core courses require a one-hour lab.

At least one natural science class must include its associated lab. Some majors require two lab sciences, increasing requirement to 8 credits

Not required for students with 30 or more transfer credits from a foreign institution. Students do not earn credit if requirement is waived.

## Bachelor of Science in Forensic Science, 122 Credits

This four years plan illustrates how students can meet degree requirements in four years. Some courses listed below may be taken in an alternate order. Courses fulfilling requirements are listed on the previous pages. For information about prerequisites and other program requirements, consult the appropriate Catalog Program of Study. Students should work with advisor to create and update an individual plan in Degree Works.
