

## **Campus Hazing Transparency Report**

**Publishing Incidents of Hazing.** Fayetteville State University will share information on its website about hazing violations by any established or recognized student organization in a report called the Campus Hazing Transparency Report. This report will be updated two times per year, and will include:

- A description of the violation, including if alcohol or drugs were used in an illegal or harmful way.
- The organization(s) involved.
- The date when the hazing was said to have happened.
- The date when the university started investigating the incident.
- The date when the university finished the investigation and decided that hazing did occur.
- Any sanctions the student group received from the university.
- The date when the university told the student group that they were found responsible for hazing.

### **2026 Transparency Reports**

**Organization:** Delta Iota Chapter of Sigma Gamma Rho Sorority, Inc.

**Reported Date:** February 17, 2026

**Date(s) Incident Occurred:** Fall 2025

**Date Investigation Initiated:** February 2026

**Resolution Date and Notice to Organization:** September 11, 2026

**Description of Violation(s):** Forced activity that could adversely affect the mental health or dignity of the student for purposes, including, but not limited to, recruitment, initiation, acceptance or admission into or affiliation with a student organization.

**Were Alcohol and / or Drug Involved:** Yes

**Findings:** Hazing = Responsible

**Sanctions:** Based upon its findings, a decision has been made to suspend the Chapter for a period of three (3) years, from Fall, 2026 through Fall 2029. The Chapter may request reinstatement beginning with the Spring, 2030 semester. During the suspension period, the Chapter may NOT engage in any of the following activities:

- Conduct a membership intake process (MIP);
- Represent itself as an active or recognized University student organization;
- Host, sponsor or participate in any social or public-facing events;
- Reserve or use the University's facilities or resources;
- Participate in University-sponsored programs, events, competitions or activities to include Homecoming activities;
- Use the University's name, logo, property, or resources.

---

The Clery Act requires that campuses collect and publish statistics for certain crimes occurring on campus or within a specific geographic area (Clery Geography). This information is published every October in the University's Annual Security and Fire Safety Report (ASR). Beginning in October 2026, the University will include hazing statistics in the ASR.

**Unlike the Campus Hazing Transparency Report**, hazing statistics in the ASR include all reported instances of hazing that meet the Clery Act definition of hazing and were reported to have occurred within Clery Geography. The ASR includes all reports of hazing reportedly committed by students, employees, recognized and non-University-recognized student organizations, or by individuals unaffiliated with the institution, regardless of whether violations were found.
