

Grant and Contract Awards Experiences Rapid Growth at Fayetteville State University

Congratulations to FSU's leadership, faculty, staff, and students as grant and contract awards at FSU experiences rapid growth. The data is extracted from the UNC electronic research administration system (RAMSeS), which usually is 50% of the actual total grant and contract funding FSU receives.

The efforts of FSU's faculty, staff and students have resulted in an accelerated rise in awards. Strategic planning, persistence, hard work, the attendance at briefings and trainings offered by the Office of Sponsored Research and Programs (OSRP), along with establishing and maintaining relationships with the sponsors' program managers have positively impacted grant and contract productivity at FSU.

Thanks to the FSU's leadership, faculty, staff, and students for their hard work and making all of us proud.

2012-2020 Awards through RAMSeS, only
