

My name is Reggie Jackson. I'm a sociology major and I'm a junior here at Fayetteville State University.

Well, my parents, neither one of them went to college, so I wanted to be the first person in my family to graduate from college.

Dr. Childs, she is an anthropology professor here. She teaches 210. And she's very helpful and she's inspired me to pursue sociology deeper.

It's a great community, great atmosphere, great school spirit.

Bronco pride!
